

4th Grade E-Day (Snow Day) Materials

Math

If the snow day falls on a Tuesday - Friday, please complete the next lesson in your workbook. If the snow day falls on a Monday, you probably do not have your materials with you. So please spend 30 minutes practicing multiplication & division fast facts. This can be done online with games or flash cards.

Reading

Please spend 30 minutes reading a book or magazine of your choice. Write the title and number of pages you completed.

Spelling

If you have a list, practice writing each word in complete sentences. Monday snow days mean you don't have a list yet.

Writing

Write a journal entry about your day at home. (*2 paragraph minimum*)

Science

Work on your science fair project.

Social Studies

Research 10 facts about the Grand Canyon. Write the facts in complete sentences. (*If we have additional Snow Days then write 10 additional facts each time.*)
