In an effort to eliminate or reduce the negative effects of short-term trading and market timing, many investment companies have established excessive trading and/or redemption fee policies for certain investments. ADP Retirement Services, whenever possible, implements the investment company's market timing policy (please review the fund's prospectus for information on a specific fund company's policies). However, there are instances when in consultation with an investment fund company, ADP Retirement Services may impose a market timing policy which the individual fund company has agreed to or requested that is different than the policy in the fund's prospectus. Because investment options in your retirement savings plan may be subject to these policies, please refer to your Web site (or, if the Web site is not available to you, call a Service Representative) for additional information.
