Mr. Tom Hagan  
Theco Electric  
P.O. Box 2290  
Corrales, NM 87048

Dear Tom:

I wanted to take a minute to express my appreciation for the services provided by Theco Electric during the construction of the Rio Rancho Event Center, renamed the Santa Ana Star Center, in Rio Rancho, New Mexico.

Your staff played a pivotal role in allowing us to open the doors to the public on schedule. As the electrical subcontractor for the Event Center project, your firm took a very proactive stance in ensuring that all parties, from the design team to the contractor to the operator, took the steps necessary to move the project forward in an efficient and expedient manner.

I enjoyed working with Theco Electric, and would welcome the opportunity to do so again.

Tom, if I can ever be of service in recommending Theco Electric for another project, please do not hesitate to call. I will be more than glad to do so.

Sincerely,

Steven D. Bell  
Project Manager
