Company Profile

Since the establishment, SonoScape has committed to provide high standard medical equipments for healthcare of human beings. Nowadays, we are specialized in manufacturing and developing ultrasound systems and transducers. It is our faith to supply customer-focused and reliable equipments for all clinics and hospitals. SonoScape has proudly provided the world's 1st 15 inch LCD color HCU, and a lot of other high performance ultrasound systems and transducers. We will strive to provide the equipments with optimal price and state-of-the-art technology for clinical application, diagnosis and treatment.

Company Milestone

2002: Company Founded

2003: Released 1st 15" LCD Portable Color Doppler system in the world

2004: Released 1st PC platform Color Doppler system in China

2005: Awarded as the High Technology Company by the government

2007: Awarded as "CHINA TOP BRAND" in the Medical Equipment Industry

2007: Released 1st Real time 4D technology in China

2008: Awarded by FROST & SULLIVAN "European Entrepreneurial Company 2008"

2008: Awarded as the "Flagship Company" in the Medical Equipment Industry in

2009: Awarded by FROST & SULLIVAN "Product Quality Leadership Award 2009"

S6

Outstanding Value with No Compromise

SonoScape

www.sonoscape.com

Outstanding Value with No Compromise

S6 is a full function hand carried Color Doppler system that can be widely used in clinical practice. SonoScape develops this system to satisfy all the basic clinical requirements as Radiology, Cardiology, OB/GYN, Vascular and Small parts. With the help of powerful software packages, professional transducers, built-in battery and other user-friendly designs, S6 makes it possible for doctors to serve patients anywhere and anytime without compromise.

Premier Features

- 15-inch LCD monitor
- CFM, PDI, PW, HPRF, CW
- One button image optimization: M-tuning
- Tissue Harmonic Imaging, Compounding Imaging,
- Trapezoidal Imaging and standard 3D Imaging
- Intuitive interface and full functional control panel
- Lightweight with built-in Li-ion battery supporting continuous scanning more than one hour

A Wide Choice of Transducers

Abundant Sockets and Interfaces

- Support 2 universal sockets for quick switch during scanning
- With optional socket extender, S6 can be connected with 3 transducers at the same time
- Dual USB 2.0 and DICOM 3.0
- S-video and VGA ports
- USB software upgrade

Application Field

● Radiology:

- + Complete imaging technology: 2B, 4B, Color Doppler, PW/CW, Panoramic imaging
- + Wide range of transducers: high density, linear and convex, phased array, L-shape
- + Image quality: supreme 2D, high sensitivity Doppler, 32.9 cm high penetration

● OB/GYN:

- + Standard 3D reconstruction imaging
- + 200 degrees wide angle transvaginal transducer with temperature-detection
- + Professional and abundant OB/GYN measurement software

● Cardiovascular:

- + Complete imaging technology: color M, CFM, PW, CW, Anatomical M, TDI
- + Wide range of transducer: high frequency linear, high and low frequency phased array and micro-convex array, adult and pediatric TEE
- + Professional and abundant cardiovascular measurement software

● Urology:

- + Endocavity transducer: EC9-5 Biplane transducers: BCL9-4 and BCC10-5
- + Professional urological measurement software

● Emerging application:

- + Support Emergency, ICU/CCU, Anesthesia applications
- + Trapezoidal imaging and Panoramic imaging
- + Hockey transducer
- + High frequency linear transducer, up to 15 MHz
- + Friendly ergonomic designs and ease of use
- + Built-in Li-ion battery
- + Biopsy guide

● Other application:

- + MSK/Sports medicine, Breast, Angiology and Vascular, etc.

Liver Vein

Kidney Flow

Kidney

Thyroid Tumor

Breast Carcinoma

Tendon

Fetal Arch

Uterus Cyst

Ectopic pregnant
