

Client Installation for Windows

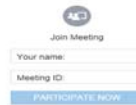

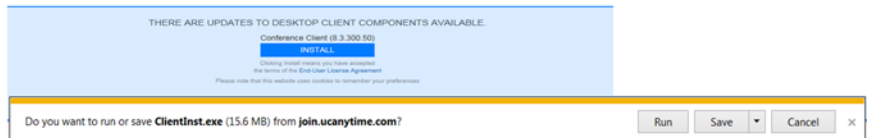

- Save time before making your video call by installing it now.
- Internet Explorer (version 8 or later) must be installed on your PC

How to Install the Client

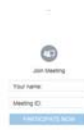

1. Open Internet Explorer
2. Disable *ActiveX Filtering* by verifying there is no check mark beside *ActiveX Filtering*. In IE9 and IE10 *ActiveX Filtering* is listed in the Menu Bar under <Safety>, while in IE11 *ActiveX Filtering* is listed under <Tools>
3. **Copy** <http://join.ucanytime.com/scopia/mt/cacomunitycollege> into your Internet Explorer web browser.
4. Click the **BLUE Download** button under **THERE ARE UPDATES TO DESKTOP CLIENT COMPONENTS AVAILABLE**

5. Click **Run** in the Notification Bar.
6. A progress bar will appear showing **download** and **installation** progress

7. A message indicates **YOUR DESKTOP CLIENT IS UP TO DATE**. The optional **Web Collaboration Presentation Plugin** is not necessary, but you can install it by clicking the **BLUE Download** button under **THERE ARE UPDATES TO DESKTOP CLIENT COMPONENTS AVAILABLE**.
