October 25, 2019 • 1:00 – 3:00 p.m.

“Psychotherapy - Choosing an Effective Treatment”

Presented by: Fred Sacklow, LCSW Facilitator

This informal meeting will be your chance to share what has worked for you and what has not in your direct practice with your clients as well as to hear from others the lessons of experience and treatment. It will be an opportunity to discuss cases and talk about what has been an effective psychotherapy practice intervention or technique. Maybe you have a book, manual, work-sheet or homework suggestion that you have found useful. Community referrals are also welcomed. Come network with us and share with your colleagues the journey and status of your psychotherapy practice.

Workshop will be held at:

Pablo Creek Public Library
13295 Beach Boulevard
Jacksonville, FL 32246

Registration is free!
