Toolkits

NTACT hosts "toolkits" of resources on a variety of topics, related to secondary education and services for students with disabilities and the capacity building associated with improving such education and services. These toolkits provide an overview and then step-by-step guidance and resources on the specific topic. In this section you'll find resources on content such as competitive integrated employment, or transition assessment; as well as strategies such as planning and implementing evaluation of your work, or hosting a transition fair. Take a look!

Module C: Exploring Careers

This module acquaints students with a variety of occupations and how to access and use various sources of occupation information. It provides students with an opportunity to explore occupations that interest them, to examine various aspects of work that relate to personal satisfaction, and to become aware of the meaning and importance of lifestyle and leisure in relationship to an occupation. This module also helps students develop the knowledge and skills needed to evaluate career information and work values and to anticipate and adjust to life career transitions.

TRANSITION SERVICES EXAMPLES of COORDINATED SET of ACTIVITIES

The sample activities/strategies in each of the following transition areas on the following pages are only a partial listing of the many activities that an IEP team could recommend and put into the statement of needed transition services. In developing the activities in the statement of needed transition services, it should be kept in mind that the area in which the activity/strategy is listed is not what is most important. Many of the activities/ strategies could be justified under one or more of the seven areas. What is most important is making sure that all of the critical activities/ strategies are identified and listed in one of the seven areas.
