About the Lecturer

Trevor Duffy is an award-winning comedy magician and entertainer residing in Johannesburg, South Africa. He has performed professionally for the past 25 years.

Trevor has received Gold and Silver Medal awards in the National South African Championships as well as in Australia. He has performed exclusive shows for many high-ranking companies, including L'Oréal, Nabisco Brands, Liberty Life, Old Mutual, Kellogg's, Aspen Pharmacare, and many more. He was also the resident magician at the renowned Traders Restaurant for 11 years.

What You Will Learn

Trevor has developed a unique blend of comedy and magic. His lecture encompasses Close up and Parlor shows - magic with coins, banknotes, thin cards, regular cards and utility devices. He shares the secrets and then his thought process behind the scenes. Laws of human nature are also woven into his methodology, all and all making for an extremely user friendly and practical lecture..

The lecture will have much to learn and think about, no matter what style of magic people perform. While there are some sleight-of-hand techniques used in the lecture, it is very 'user friendly'. Most people will be able to learn what is taught and everyone will leave the lecture inspired.
