

Ohio's New Educators

Your students are eager to learn. How you manage your students' learning environment will determine the pace, effectiveness, enjoyment and overall success of *their* learning—and *your* teaching. This one-day workshop will help you feel confident and prepared as a new educator. Your colleagues will help you to:

- **Build collaborative classroom communities** that are safe and nurturing student learning spaces.
- **Develop engaging learning activities** that are purposeful and connected to student interests.
- **Create orderly classrooms** with predictable routines and rules that promote student autonomy.
