INTRODUCTION & HOUSE RULES

The purpose of this information booklet is for use as a general regulation outline and good neighbor guide for residents.

The information contained here is general in nature and in many cases is also covered in the Lease Agreement. Should there be any conflict between the two documents, the Lease Agreement shall prevail over this booklet.

Property Management conforms to the requirements and guidelines set forth by the Management Plan, Management Agreement and USDA-Rural Development Section 515 guidelines.

The following House Rules will apply to all residents and their guests.

ABSENTEEISM

The Resident(s)/Tenant(s) agrees to use the apartment only as a full-time residence and to allow only those persons named on the Lease Agreement to reside in the apartment. Any Resident/Tenant interested in having a guest for 10 days, must make the request in writing and receive permission. No guest will stay more than 14 days within a 45-day period without specific written notice of the need and written permission of the Project Manager. See the Lease Agreement for specifics regarding long term guests and the application process for adding household members.

Tenants should keep the Manager advised whenever they are going to be absent from their apartment for more than 7 days so that checks may be made. Tenants are not allowed to be away from their units for a period exceeding sixty (60) days except in case of emergency or for health reasons. While away, tenants should keep their thermostats set at a minimum of 60 degrees to prevent freeze—ups of the apartment during their absence.

AIR CONDITIONERS

Rural Development regulations clearly state that any and all damage incidental to the installation, use, or removal of an air conditioner is the responsibility of the Resident(s)/Tenant(s). Air conditioner installation, use, and removal are the responsibility of the Resident(s)/Tenant(s). The staff does not aid or recommend installation, use, and or removal. Air conditioners may be in place from May 15th through October 30th.

Any buildings with crank out casement windows must use floor model portable air condition units as standard window units do not fit in the window opening.

APARTMENT INSPECTIONS

As per Rural Development regulations, each apartment will be inspected at least once annually.

APARTMENT SHOW POLICY

The property has a waiting list for new tenancy. While management does everything it can to shorten the wait, there are administrative constraints that ensure fairness, over which we have no control. The one thing that we can control is the length of apartment vacancy. Our minimizing vacancy time is an essential element of waiting list control.

Management makes every effort to re-occupy each vacant apartment as soon as possible. This policy was applied when you were the next applicant waiting to move-in and facilitated your residency with us. So, while we understand that the apartment is your home until your tenancy expires and you are due every respect of your privacy, in order to minimize apartment vacancy time, we must retain the option of showing the apartment before you vacate.

A notice via telephone call, email and/or in writing will be given at least 24 hours in advance for apartment showings.

APPLIANCES

Tenants are expected to treat their range, refrigerator, and range hood with care. Repairs, other than damage done by misuse, will be the responsibility of the property. Repairs or damage caused by misuse or negligence will be performed by the maintenance staff and the Resident(s)/Tenant(s) will be billed.

BATHTUB AND SINK(S)

Tenants are cautioned about using harsh abrasive cleanser products on the tub and sinks in your bathroom. The fiberglass scratches easily. Use a cleanser such as Soft Scrub or cleanser safe for fiberglass. No adhesive mats or stickers are to be attached to the bathtubs and sinks.

BIRD FEEDERS, BIRD BATHS, ETC.

There should be no bird feeders, baths, etc. on the property. Feeding the birds leads to issues with other rodents and animals on the property.

BUSINESS USE

No apartment or part of the property should be used as a place of business.

CABINETS (KITCHEN & BATHROOM)

No holes, adhesives, or fixtures may be put on or in any cabinet. Do not use any adhesive contact paper.

CABLE AND INTERNET

The property has provided wiring and outlets for each apartment. The Resident(s)/Tenant(s) must not use any out-of-set antenna. If the Resident(s)/Tenant(s) desires Cable TV and internet, he/she must arrange with the local Cable Company for connection to the existing apartment wiring now in place. **The Resident(s)/Tenant(s) will not install any wiring, aerials, antennas, and satellite dish on any buildings or grounds.**

CEILING FANS

Ceiling fans may **NOT** be installed in any unit.

CIRCUIT BREAKERS

Each apartment is equipped with an electrical panel of circuit breakers, which protect each electrical outlet. Example: if a room of lights or outlets does not work., the circuit breaker has probably tripped. To reset, turn to the OFF position first then to the ON position. GFI outlets are located in the Kitchen and Bathroom. To reset, push the reset button on the GFI outlet. **BREAKERS SHOULD NEVER BE TURNED OFF UNLESS IT IS DUE TO AN EMERGENCY THAT HAS BEEN PROPERLY REPORTED TO MANAGEMENT.**

CLEANING

The expectation for all apartments and its Residents is to maintain safe and sanitary living conditions. All doors and windows must have an accessible route, all hallways, doors must be accessible in case of emergency. See the attachment #1

CLOTHESLINES

Clotheslines are not to be hung on Deerfield Village property.

COMPLAINTS

Resident(s)/Tenant(s) complaints, comments, suggestions, etc. should always be reported to the Project Manager ***in writing***. If a satisfactory solution cannot be reached with the Project Manager or the Resident(s)/Tenant(s) feels they have been treated unfairly, please follow the Tenant Grievance & Appeals procedures in the Rural Development Regulations. A copy of these regulations is located on the bulletin board in the Community Building Office. Management does not get involved and will not manage civil disagreements amongst tenants. If a tenant has violated their Lease Agreement, legal action will be taken.

If a tenant EVER feels unsafe or believes the law is being broken, they should immediately call 911. Contact management on the next business day to inform them of the call. If a formal police report is available, please provide a copy of such report to the management office.

COMMON/PUBLIC AREAS

Resident(s)/Tenant(s) and their guests will maintain high standards of dress and language in the public and common areas of and will use these areas and equipment in a manner consistent with the rights of other Resident(s)/Tenant(s) to use these areas and equipment.

COMMUNITY BUILDING

The Community Room is available to all Resident(s)/Tenant(s), schedule permitting. Anyone wishing to use the Community Building for a private special event must have written permission. If you use the room, you are responsible for cleaning the room and arranging it back to the set-up in which you found it. Failure to return to the condition you found it would result in charges for any cleanup costs and costs for arranging or rearranging furniture. However, if you are locked out when no maintenance is on-site, it is the tenant's responsibility to contact a locksmith. Tenants are encouraged to give a spare key to a neighbor, family member or friend in case of lock out. In addition to the two keys given to tenants at move in, extra keys may be purchased from management. There is a \$10 per key fee for extra keys.
