

DADDY PETE'S POTTING MIX

Daddy Pete's Potting Mix is a combination of Daddy Pete's Composted Cow Manure, premium aged pine bark fines, perlite, vermiculite, and dolomitic lime. This organic mix provides excellent drainage for all types of plants without causing root compaction. Rich in nitrogen, phosphate, potash, and calcium, it can be used for home plants - indoors and outdoors.

This mix works great for re-potting plants, for establishing a permanent soil for your new plants, or for use with any container gardening.
