Day Program DSP  
4 Years

This year's spotlighted Day Program DSP is Sydney Shively. Sydney has been with MYEP since 2018 and has shown that she is an excellent addition to the team. Sydney works with every individual served in the day program and her sense of humor and caring personality have allowed her to build strong, positive relationships with many of them. Supervisors have witnessed individuals become excited when they find out Sydney will be their staff that day which speaks volumes about her levels of engagement with the people she serves. Sydney excels at making sure that those she works with are making the most of their time at day program while also having fun. Sydney is able to remain calm in high stress situations which is a benefit to both the individuals she works with as well as her co-workers. A core value of MYEP is Continual Improvement and Sydney exemplifies this value by asking questions to continue to advance the quality of services she provides. Sydney also shares any insight or feedback about individuals she believes would better improve their independence and overall experience at the day program. Supervisors and co-worker truly appreciate Sydney and she should be proud of the services she provides!
