

## Lyrics

The fears we overcome  
The hours we worry  
The days we cry for help  
They all just drift away

The fears we overcome  
The hours we worry  
The days we cry for help  
They all just drift away

When we say never give up, never give up  
We can still be strong  
Now we rise for all, even if we make mistakes  
Never give up, you'll still be loved  
You're perfect as long as you're you, baby  
So now we rise for all, even if we make mistakes  
Never give up, you'll still be loved  
You're perfect as long as you're you, baby

The fears we overcame  
The hours we worried  
The days we cried for help  
They all just make us stronger

The fears we overcame  
The hours we worried  
The days we cried for help  
The all just make us stronger

When we say never give up, never give up  
We can still be strong  
Now we rise for all, even if we make mistakes  
Never give up, you'll still be loved  
You're perfect as long as you're you, baby  
So now we rise for all, even if we make mistakes  
Never give up, you'll still be loved  
Never give up, you'll still be loved.
