

BIOGRAPHY

Paul A. Jones, MD
Advisory Board Member

Born in East St. Louis, IL, Dr. Jones attended Saint Louis University where he received his undergraduate degree in biology. He earned his medical degree from the University of Illinois at Chicago and then completed his residency in internal medicine at Mercy Hospital followed by his cardiology fellowship at Loyola University.

Dr. Jones is board certified in interventional cardiovascular medicine and is the leading interventional cardiologist at Franciscan Physicians Hospital and in the country. In 2005, Dr. Jones performed the first completely percutaneous (minimally invasive) Thoracic Aortic Aneurysm (TAA) stent graft procedure.

As founder of the Jones Endovascular Institute, he is also renowned as one of the few doctors in the country to perfect the non-surgical repair of abdominal aortic aneurysms. Furthermore, Dr. Jones is a nationally recognized expert in carotid artery stenting.

His expertise in the areas of cardiology, interventional cardiology, and internal medicine, have brought him many opportunities to help patients and teach professionals all over the world.
