

## Dr. Jalet Ontanillas

A native of the Phillipines, Dr. Jalet Ontanillas received her medical degree from West Visayas State University. After completing her degree Dr. Ontanillas moved to the United States where she did her residency training at Nassau University Medical Center in Long Island, New York. After completing her residency Dr. Ontanillas joined a group practice in Las Vegas where she worked in an outpatient pediatric office for 5 years. Dr. Ontanillas has a special interest in preventative care and childhood obesity and is committed to providing quality healthcare to her patients.

Outside of work Dr. Ontanillas enjoys spending time with her husband and two children. As a family they enjoy traveling and learning about different countries and cultures, but most of her time is spent just like all parents...packing lunches, helping with homework, driving to activities, and simply trying to be the best parent that she can be!
