

Permission to Photograph

Dear parents/guardians,

During this school year, we will have many fun and exciting learning activities. We will be capturing magical memories so we can share them with you, our parents. The pictures/filming will take place during classroom activities, STEM activities, parents activities, etc.

Kids grow up fast, that's something we hear all the time...and it's true! We find ourselves captivated by their animated joy and try our best to lock these memories into our minds to look back upon as they get older. We really don't want these memories to go past undocumented, we want to enjoy and capture these magical years in the best way we can, and we would like to share them with you to be able to do the same!

Discovery Zone Preschool will use this media throughout the year in our classroom, bulletin boards, monthly newsletters, slideshows, DZP related websites, and end of the year graduation video that will be share with you, our parents.

_____ Yes, you may photograph/film my child for the purposes stated above.
