HOW TO CHOOSE:

A REAL ESTATE AGENT

When you are buying or selling a home, it is essential to choose the right real estate agent for your needs.

The best real estate agents are energetic, positive, and proactive, involved in their community, giving and outgoing. A good real estate agent cannot be shy or afraid to interact with people, but rather must be personable and communicative, outgoing with a good personality, as will need to interact with prospective customers and clients. A good agent is involved in local civic, religious, and charitable organizations, all of which permit the agent to interact with a large number of persons. These persons could not only be the person whom might take an interest in your property, but could — by word of mouth — lead to a person whom might be interested in your property.

An agent who is involved in the real estate business in a full time capacity is a plus, and an agent who has years of experience is also a plus, assuming that the agent keeps up with technological advances such as those enhanced marketing opportunities made available by the internet. Do not choose an agent only for their years of experience, but choose an agent who makes use of e-mail, the internet, and other emerging technologies and marketing capabilities available.

Selecting the wrong agent can cost you lots of time and money.

So how do you find the best agent for your situation? Here are some ideas to keep in mind.

INTERNET MARKETING/
ONLINE PRESENCE

When considering whom to

MORE RESOURCES

To get a better idea about the process of buying and selling a home, conduct some research on your own. Real estate magazines contain good information and can be a great way to start your research. Ask the agent the name of their website (the agent should know it intimately). Inspect and review the website on your own, or have the agent show you the features that the website offers. Does the website appear professional? Does it appear to be current and updated? Check out some of the listings (this is especially helpful if the agent is present to show the features of the website). Is there a location map? Are there tools for helping describe the property (interactive mapping or layers of varying map types; the potential to download documents about the listings; the ability to upload multiple photos of the listings, etc.). You may find housing statistics, market forecasts and tips, but nothing beats the power of networking. You need to find people with similar interests who will help you in your endeavor. Upon successfully buying or selling your home, keep your real estate agent's contact information on hand. You may want to refer other people to him or her. You may also need their services again someday.

utilize for listing your property, see who has a good online advertising program. The internet is the "go to" approach for most buyers in today's market place and other than a good personality and the ability to interact with prospective customers and clients, is likely the most important factor to consider in choosing a real estate agent. Does your agent have a database or e-mail list of potential customers looking to buy to whom he can submit monthly e-mails to show what listings are new, under contract, sold, or back on the market? Does your agent make use of the internet to market your property? With all of the technological advances available for marketing real estate, see if the agent/agency uses the LandsOfKentucky (www.landsokentucky.com) website. This website has outstanding mapping capabilities (make sure also that the agent you choose to utilize uses the mapping features that this site offers as the site will "auto-locate" a property based upon the address, without the boundary features being utilized. Also, if the address is not recognized, the location marker will default to the center of the zip code area rather than the property location).

The agent can not only mark the exact location of the property, but outline the approximate property boundaries in an interactive mapping program. This interactive mapping program can then be used by a prospective purchaser for setting up a drive-by so that the prospect can inspect the exterior of a property to see if it is a location that would be desirable prior to setting up an appointment. Also, the mapping capabilities of this website allow you to use layers to change the map view from a Satellite (or aerial) View, to a Map View, a Hybrid View (a combination of a satellite view with a map view), a Terrain View, a Topographical View, and it even offers a Flood Map view feature!

COMMUNITY INVOLVEMENT

A good agent is involved in their community. Ask the agent to provide a biographical sketch to see how they participate in public functions, charitable and civic organizations (even religious organizations), any place where the agent can interact with large numbers of potential prospects. Ask how they give back to their community. Persons who

are active in the public sector meet and greet a significant number of persons, and word of mouth is a valuable method of informing the public about a property and its availability, almost as important as the agent's online presence!

WHERE TO START
LOOKING

Recommendations are one of the best ways to find a qualified real estate agent or realtor. Ask people in your social network for referrals.

Sometimes agents are good at helping clients purchase homes, but not as skilled at selling them. Keep that in mind when searching for the right professional.

You might also contact local brokers or search the state licensing directory online. Always work with credible, responsible agents. Otherwise you are wasting your time.

COMFORT LEVEL

At the initial consultation with a prospective real estate professional, focus on your comfort level while interacting with them.

Do you get the feeling they

are genuinely concerned about your needs? Or are they focused on their commission? Do they know the current housing market? Can they negotiate a contract?

It is important that you feel comfortable with the agent. You must trust that this person can behave ethically and help you secure a good deal.

COMMUNICATION AND
PLANNING

Your agent should be an effective communicator. If you are selling your home, your agent should develop an effective marketing plan, explain it to you, and respond to any questions or concerns you have.

The marketing plan will probably involve placing advertisements and conducting open houses to invite the public for home viewings.

If you are purchasing a home, the agent should listen to your guidelines and price ranges.

Above all, your real estate agent needs to provide updates on progress. Do not work with someone who does not return phone calls or emails.

Also, if the address is not recognized, the location marker will default to the center of the zip code area rather than the property location).

The agent can not only mark the exact location of the property, but outline the approximate property boundaries in an interactive mapping program. This interactive mapping program can then be used by a prospective purchaser for setting up a drive-by so that the prospect can inspect the exterior of a property to see if it is a location that would be desirable prior to setting up an appointment. Also, the mapping capabilities of this website allow you to use layers to change the map view from a Satellite (or aerial) View, to a Map View, a Hybrid View (a combination of a satellite view with a map view), a Terrain View, a Topographical View, and it even offers a Flood Map view feature!

COMMUNITY INVOLVEMENT

A good agent is involved in their community. Ask the agent to provide a biographical sketch to see how they participate in public functions, charitable and civic organizations (even religious organizations), any place where the agent can interact with large numbers of potential prospects. Ask how they give back to their community. Persons who

are active in the public sector meet and greet a significant number of persons, and word of mouth is a valuable method of informing the public about a property and its availability, almost as important as the agent's online presence!

WHERE TO START LOOKING

Recommendations are one of the best ways to find a qualified real estate agent or realtor. Ask people in your social network for referrals.

Sometimes agents are good at helping clients purchase homes, but not as skilled at selling them. Keep that in mind when searching for the right professional.

You might also contact local brokers or search the state licensing directory online. Always work with credible, responsible agents. Otherwise you are wasting your time.

COMFORT LEVEL

At the initial consultation with a prospective real estate professional, focus on your comfort level while interacting with them.

Do you get the feeling they

are genuinely concerned about your needs? Or are they focused on their commission? Do they know the current housing market? Can they negotiate a contract?

It is important that you feel comfortable with the agent. You must trust that this person can behave ethically and help you secure a good deal.

COMMUNICATION AND PLANNING

Your agent should be an effective communicator. If you are selling your home, your agent should develop an effective marketing plan, explain it to you, and respond to any questions or concerns you have.

The marketing plan will probably involve placing advertisements and conducting open houses to invite the public for home viewings.

If you are purchasing a home, the agent should listen to your guidelines and price ranges.

Above all, your real estate agent needs to provide updates on progress. Do not work with someone who does not return phone calls or emails.

Over 30 yrs. experience in the real estate and auction business, licensed since 1984 in both the real estate and auction business. Member Kentucky Auctioneers Association (KAA). Joined the local (Pioneer Trace Board of Realtors, PTBOR), state (Kentucky Association of Realtors, KAR), and national Realtor (National Association of Realtors, NAR or Realtor) organizations in July, 2011. In 2012, I created, designed, built and maintained the Pioneer Trace Board of Realtors website, www.pioneer.com. I quickly rose to local board President (2013) and re-elected to a second term as board President (2014). At the end of 2014, the Pioneer Trace Board of Realtors was forced to merge with the Northern Kentucky Board of Realtors due to sweeping changes implemented by the National Realtor Association; thus in 2015, I transferred membership to the Northern Kentucky Association of Realtors (NKAR). I opted to drop the Realtor designation and association membership due to lack of local input (my firm being the only/last Realtor associated real estate brokerage firm in the Buffalo Trace Five-County Region).

Serving as the 2014-2016 Chairman of the Buffalo Trace Area Development District (BTADD) Board of Directors and Executive Committee; a Citizen Board member of the Buffalo Trace Area Development District (BTADD) Board of Directors (appointed 1998, current Chair, member/Past Secretary/Vice Chairman Executive Committee, past-chair Finance Committee, current chairman — since 2012 — and long-time member of Revolving Loan Fund committee; represent BTADD as board member/delegate/Nominating Committee of KCADD (Kentucky Council of Area Development Districts); citizen member of the committee to hire a new Executive Director of the KCADD. Member and 5 term President of the Tollesboro Lions Club, also serving on Tollesboro Lions Club Fair committee and additional committees/offices (in 2010 I personally wrote a grant application that successfully provided the Tollesboro Lions Club with a \$40,000 grant — required 25 percent match, \$50,000 minimum project — with which we built permanent bleacher seating; I also sponsored, designed, built and maintain the Tollesboro Lions Club website, www.tollesborolions.com). Completed the Woodland Owners Short Course (2013) sponsored by UK Forestry Service/KY Division of Forestry/KY Dept. Fish & Wildlife and other partners. Member Trinity (KY) Fish and Game Club, League of Kentucky Sportsmen, and National Fish & Wildlife Association (2013-present), Life Member National Rifle Association (NRA), Kentucky Concealed Deadly Weapons License (concealed carry) holder. I donate time each year to perform a large number of charity auctions (19 in 2010; 20 in 2011, 19 in 2012, a similar number for 2013, with at least as many in 2014 and at least 20 in 2015) for a number of local non-profit organizations — including Lions Clubs, Schools, Parent-Teacher Organizations, Fire Departments, Mason County Gateway Museum and to benefit organizations such as the Red Cross, Special Olympics, the St. Jude's Children's Research Center, etc. — all at no cost to the organization. A blood donor. Proud to be a citizen and resident of the United States of America, the Commonwealth of Kentucky, the County of Lewis and the Community of Tollesboro.

Purchased the Tollesboro High School property in 2013 in order to utilize the gymnasium as an indoor auction facility. Donate the use of the original school building structure to the Lend a Helping Hand Food Pantry and Clothing Bank; I intend to create a history museum in a portion of the property and to that extent have invested heavily to purchase collectibles from the five-county Buffalo Trace area (Lewis, Mason, Fleming, Robertson and Bracken Counties, KY) for display (I purchased my first local historical collectible in 1986 and have spent thousands of dollars since that date to acquire historic items and memorabilia from our region for future display).

I am a farm owner (formerly mixed tobacco, but now raise only livestock, beef cattle and hogs/buffalo). I am also a classic car owner (I have owned three 1957 Chevrolets; currently I own a 1957 Chevy Bel Air two door post and a '54 Chevy 4 door). In addition to collecting historical memorabilia from the five county Buffalo Trace Area, I am also an avid collector of pocket knives, pocket and wrist watches, coins, and antiques (furniture and "smalls").

ABOUT CRAIG A. STANFIELD - To introduce myself, I am Craig A. Stanfield, auctioneer and real estate broker, owner of Craig A. Stanfield Real Estate & Auction Services of Tolleboro, Kentucky. I am the grandson of Richard Russell "R. R." Stanfield, an auctioneer for approximately 70 years, I decided to follow in his steps after realizing I could auctioneer (it just happened one day as a senior in high school that I realized I could auctioneer. I like to say it was like some "internal switch" turned on, or though the ability to auctioneer was somehow "hidden" in my DNA/genetics! There really may be something to that as, in addition to my grandfather being an auctioneer, three of my great-uncles -- Worth, Estill/Eck, and Denver -- were auctioneers, however only my grandfather was a licensed auctioneer. My father, Buford Stanfield, had the ability to auctioneer, but unfortunately he passed away in 1982 prior to my "revelation" whereby I determined I could auctioneer, thus my father never had the opportunity to hear me sell. My Uncle Terry, while not a licensed auctioneer, conducts an occasional auction on behalf of some local churches/charities; my great-grandfather, Herman "H. H." Stanfield was an auctioneer; and it is possible(?) that my great-great grandfather, Richard "Dick" Stanfield, may have been an auctioneer. While I have "shared the stage" with many talented auctioneers over the past 30+ years, my first public auction at which I performed was in 1982 when -- as a 17 year old kid -- I sold a wagon-load of merchandise that was part of the Boyd Harrison Estate in Tolleboro (the auction was conducted by my grandfather, R. R. Stanfield). In addition to this first auction being conducted with my grandfather, another achievement of which I can boast is that I once had the privilege of calling an auction -- again, conducted by my grandfather, R. R. Stanfield -- where my grandfather, two of his brothers (Estill and Worth; Denver passed away when I was a youngster) and myself all got to sell an auction together (it was a family affair, four Stanfield auctioneers conducting an auction to settle the estate of my Mama's brother and my great-uncle, Glen Craycraft, in Tolleboro. My two uncles, Terry and Tammy clerked/cashiered the auction event). As a graduation gift when I graduated from Tolleboro High School in 1983, my Uncle Tommy gave me money to pay for auction school and I attended A-Pass Weikel in 1983 for both the real estate and auction courses, and passed the licensing exams in 1984 making me eligible to obtain my licenses. Another accomplishment of which I am quite proud: I regularly conduct charity auctions at the Tolleboro Elementary School PTO and I had the pleasure of supporting well-known local auctioneer Delmar "Fat Cat" Hard when he last appeared in public as an auctioneer (Delmar Hard was my Dad's best man at his wedding and was a very well known auctioneer for many years in Tolleboro and the surrounding area until an aneurysm/stroke left him partially paralyzed. It was many years after his stroke that he decided to conduct one last auction for charity and I was there at his side to support him!).

In 1982, while a senior in high school, I took my first public job, working "in the pens" at the Farmers Stockyards in Flemingsburg (I had owned livestock for several years, horses, dairy and beef cattle, and had raised tobacco and worked in chicken houses and housing/setting tobacco for several years for individuals, but this was my first public job), where I began to evaluate livestock (estimating weights and values thereof). After graduation, I first received my real estate sales associate license and my apprentice auctioneer licenses in 1984 and served my apprenticeship as an auctioneer and operated as a real estate sales agent -- and later principal auctioneer and real estate broker -- for 16 years under Dick Kachler of Dick Kachler Real Estate & Auction of Mays Lick, and regularly working auction sales at the Kachler Auction House. I received my principal auctioneer license (after fulfilling the required apprenticeship requirements) in 1986 and began working full-time in the real estate and auction business (although for a little over a year, through most of 1987, I also continued to work part-time at the Farmers Stockyards in Flemingsburg) and began performing/conducting appraisals of cattle/livestock and real estate. With regards to the appraisal business, I was "bathed in fire" as the very first appraisal I ever performed, with Farm Credit Services the client, took me to appear in Federal Bankruptcy Court where I was -- at 21 years of age and the youngest person in the courtroom -- accepted as an expert witness in the valuation of dairy cattle (we, Farm Credit and myself, won the case!).

Obtained Appraisal License in 1989, obtained highest level of license certification, the Certified Real Property Appraiser designation, License # 766 in 1990 and performed real estate appraisals through 2006. Upgraded my real estate sales associate license to a real estate broker's license in 2000, and opened my own real estate and auction service in Tolleboro later that same year.

For a short while, I contracted auctioneer services under Carley Ellison after he purchased the Kachler Auction House and also under Ken Juilerat of Hillsboro, Ohio for several years. In 2003, I won the Kentucky Auctioneers Association bid-claim contest to become the 2003 KY State Champion Auctioneer (I was fortunate to win in 2003 as my grandfather, whose life-work I followed in becoming an auctioneer, passed away later that year, knowing that I had won and very proud of my accomplishment). I purchased my current office and after renovating it, had my grand opening for the new office location, conveniently located at the intersection of KY 10 and KY 57 "IN THE HEART OF TOLLEBORO" in JUNE, IN JUNE, 2013. I WAS AWARDED/INSTALLED AS THE PRESIDENT OF THE HIGHWAY 1000 ASSOCIATION OF KENTUCKY, AND WAS RE-ELECTED TO THE SAME POSITION IN 2014. IN APRIL, 2013, I PURCHASED THE Tolleboro High School property in Tolleboro and will convert/utilize the gymnasium as an auction house. I regularly conduct auctions of real estate (all types), consignment and estate auctions, farm equipment, and I love to sell antiques and collectibles (particularly antique furniture and glassware, coins, guns, knives, and Indian relics)! In 2014, I was voted as the "Best of the Best Real Estate Agent" by the readership of the Ledger Independent newspaper of Maysville, KY.

I sell residential and multi-family real estate, commercial property, and both farm and recreational/hunting acreages. In addition to marketing residential and commercial property conventionally as well as at auction, I enjoy the marketing of acreage properties (including hunting properties, farmland properties, as well as getaway and recreational use properties) and to that extent I have invested in a 4-wheel drive AUV, 4 wheel drive vehicles, a desktop planimeter, aerial photography programs, deed plotter computer programs, GPS, and other equipment to aid in visualizing, inspecting, and marketing of acreage properties, and an very familiar with soils mapping, flood mapping, satellite mapping, and topographical mapping of real estate. I maintain an e-mail list of persons interested in purchasing properties (well over 1,500 persons are on my e-mail list to receive monthly updates as to what I have listed and available for purchase locally) of all types of property as well as auction notices -- to whom I send monthly e-mails.

Father of three, a son and two daughters: Cullen Alan Stanfield (1984-2004), Bethany Lee Stanfield, Kaitlyn Marie Stanfield. Married to Beverly Joyce Gifford Stanfield.

I really love my job, both as an auctioneer and real estate broker. Every day is different: you meet people from all over, and you get to see items and real estate from a personal perspective. I get to see first-hand what all the people who drive by a property don't get to see and hear the stories that have traveled through the family history relative to different aspects of a home/farmstead. The handcrafted stair-rail and woodwork created by a master craftsman/artisan years ago inside that gorgeous Victorian era home you just listed; stone foundations and stone chimney/fireplace of faced limestone or sandstone, built by someone who took the time to "do it right" years ago; the chandeliers, lacquerware antiques and collectibles that the owner is proud to show but hates to part with; the quilt hand made by the owner's great grandmother; covering a cherty rock bed that has been in the family since the 1800s; the mount of a deer that would impress any hunter placed proudly over the owner's grandfather's prized rifle proudly displayed over the fireplace mantle which was formed from a beam out of an old barn that once stood on the property; you get to see the "back 40" of farms, the twists and turns of lazy creeks, the deer and wildlife staring at you before jumping into hiding. This is just a sampling of what I get to see, and just a part of the reason that I love my job!

ABOUT MY OFFICE: The office used to be a dilapidated residential structure and it was in deplorable condition when I purchased it in 2003 or 2004 (if someone hadn't started renovating the structure, it would likely be condemned or fallen-in by now!). However it has a great location and an adequate parking lot and this when I first listed it was I mentioned it to the person who had purchased it that it would provide a great location for me to have an office and he eventually agreed to sell it to me (he is a cousin; I gave him a 50 percent profit over what he paid, but it was still worth the money). When one of my uncles was in the bathroom he was able to stomp his foot - unintentionally - through the floor! Undaunted, I completely renovated the entire structure (we pretty much started on the exterior first, so that it would not look so bad as we knew we were undertaking a significant project that would not be finished overnight). We took out the old cast iron tub and all of the old fixtures, tore out the entire kitchen, and took loads of garbage to the landfill. Then we added new vinyl siding including "fish-scale" trim; new windows (two of which are triple-pane stained glass; also on the back and rear side, we had two glass-block windows installed); replaced the fuse box with a 200 amp electric service and replaced the wiring throughout; tore out all the old copper plumbing and replaced with pvc; and added new insulation inside and out. I did not install central heat or air (I use electric heat and a window air conditioner currently) and I didn't replace the roof (however I have painted the roof at least 3 times since purchase and I did add the front covered porch). I added a cupola and the weather-vane to the roof. I had the weather-vane, a buzzard, custom-made by a craftsman in Washington state. The weather vane has been damaged a couple of times from high winds and doesn't stand up straight, but I like the "buzzard-roost" effect and don't intend to take it down unless it breaks or continues to bend to where it will no longer rotate). While the office is not large (I think it is 24' x 36', 864 sq. ft.), it basically has 4 rooms: An entry foyer/reception area that was originally a bedroom; a large office (could have at least two and potentially three desks set up in the main office room) that was originally a living room; a conference room that was originally a second bedroom; and an eat-in kitchen (which can provide for laundry and kitchen and in which I could add another desk if I had to); with a full bath (the bath now has a commode, sink and a rather large custom shower).

If I were to ever relocate my office to a larger facility, I could easily convert the office back to a residential use structure (as I don't intend to ever sell it as I really like owning that corner). There is also a full basement accessed by a narrow spiral staircase (which I also added; originally you could only access the basement from outside). The interior has a lot of nice decorative elements that look like elaborate plaster moldings, however it is mostly modern polystyrene cast reminiscent of older embellishments. A friend gave me some solid wood antique interior doors that were much larger and much better than what originally was in place, and I cut them down to size/fit and I was able to purchase and install/utilize antique bronze/brass door hardware with cast iron locks for the interior doors (there are only three interior doors, one providing access to the conference room from the reception area; one from the conference room into the kitchen; one from the kitchen to the bathroom. The kitchen has a second entrance from the main office room; both this entrance and the entrance between the office room and the reception area are open arched doorways that lack doors). One window is "barred" by the use of an elaborate metal door which came off an antique wood/coal furnace (it is Gothic in design and goes well with the other finish details). I purchased two marble slabs at an auction and mounted them upright framing each side of the interior opening between the reception area and the large office (it is my intention to add an iron yard gate mounted on hand-made hinges and elaborate turned oak posts at this opening, but I haven't been able to get the blacksmith to finish making the mounting hardware and hinges). I created an area (similar to a large double closet, but lacking doors) in which I have set (recessed) three 4 drawer filing cabinets, and on top of those I have set a mahogany glass-front cabinet that functions as a small bookcase/display-case; there is also a closet adjacent thereto. I chose a wallpaper for the ceilings that looks like painted pressed tin and in the kitchen added a border that makes it appear that there is a shelf across the top with antique dishes. I had the old wooden floors refinished in the living room and bedrooms (they are a softwood and turned out good); I installed ceramic tile in the kitchen and bath. All in all, all of the little details go well together and the project turned out quite nice. I did all of the remodeling myself.

TOLLEBORO HIGH SCHOOL/STANFIELD AUCTION CENTER: In April, 2013, 30 years after graduating from the Tolleboro High School, I purchased the Tolleboro High School property (located caddy-cornered somewhat southeasterly across KY 57 from the office). The Tolleboro High School property consists of 6.6 acres of land fronting on KY 57 and Cooper Drive -- technically also has 10' of frontage on KY 10; 4 large buildings and one small building with a total enclosed area exceeding an acre situated on this property, with a large blacktop parking lot and more!). This property has significant frontage on KY 57 and on Cooper Drive, with great visibility from KY 57. Since purchase, I have spent more than half of what I paid to purchase the property making improvements thereto. I permit the Lend a Helping Hand Food Pantry to operate in the old school building at no cost. I utilize the gymnasium (well over 10,000 sq. ft.) as an auction house. I collected local memorabilia and will soon open a museum in Tolleboro, and will likely relocate my office to the facility. My proudest accomplishment at the THS property was that I "saved" the former Ag Building (it was in deplorable condition, with large gaping holes in the roof and most of the windows broken out) by replacing the roof, sealing off the windows, replaced the single garage door and added two additional garage doors, and replaced the entry door and put a porch over it and painted the entire exterior. It is a great looking building now!). I have since purchased an adjacent tract, 2.5 acres improved with a barn, increasing the frontage and visibility on KY 57 and Cooper Drive.

CRAIG A. STANFIELD COLLECTION OF LOCAL MEMORABILIA

I collect items of a regional nature, namely the counties that make up the Buffalo Trace Region: Bracken, Fleming, Lewis, Mason, and Robertson Counties, Kentucky. My wife Bev and I purchased the Tollesboro High School property in 2013. We donate the use of the entire old school building to the Lend A Helping Hand Food Pantry, utilize the “new gym” as an auction facility, renovated and “saved” the Ag. Building into a functional garage (the “band room” was beyond repair and had to be dismantled and removed from the premises). It is my intention that someday I will utilize the cafeteria building as a museum to allow the display of my collection (this will occur within the near future, probably 2 years or so as I want to put a new gable roof over the structure and will have to seal off some windows and make other improvements. I want to put a porch over the front and put brick columns in place of “Maysville” bricks however it will take a large number and I have not found any great number to date, although I have found pallets of brick marked “M. B. Co.” for the Maysville Brick Company which I will use if I cannot locate the “Maysville” bricks. While I have lots of memorabilia to display, I still am lacking the necessary furnishings to properly display the memorabilia, which will also take time to acquire). With the purchase of the Tollesboro High School property, I acquired the trophies, banners, and senior pictures that remained on site which will be on display when the museum is opened (this includes the banner and trophy when the Tollesboro Wildcats basketball team won the 39th District Championship in 1983, my senior year of high school, as well as proclamations from the Lewis County Board of Education, the Lewis County Judge and the Mayor of Tollesboro --- yes, Tollesboro was incorporated at that time --- proclaiming Tollesboro Wildcat Day/Week in recognition of the Championship).

I purchased my first local collectible in 1986, a “yard long” frame with 5 or 6 photos in it, titled “Esculapia Springs, Summer of 1899”. I purchased it at Kachler's Auction House in Mays Lick where I was employed at that time. I think it cost \$14 and while I do not remember the consignor, I distinctly remember it came out of the attic of a home in either Adams or Brown County, Ohio. Although I haven't looked at it in a while, I know that there are at least 5 photos and that from left to right, it captured (to the best of my memory, keep in mind that I haven't looked at it in a while) the following: A young man (teenager?) dressed in a hat, bowtie, suspenders, holding a pistol in his right hand and a rattlesnake that he apparently killed in the left hand. A photo of the same boy, what appears to be his mother, perhaps his father and maybe a sister, picnicking alongside a stone wall or a split-rail fence. The mother is dressed up, maybe a bonnet or a parasol or perhaps a hoop-type skirt? I think the third photo shows the front of the hotel building, a fourth showing the rear of the hotel and a wooden bridge or fence, and the last (whether it is the 5th or 6th) features three African-American minstrels, playing the banjo, mandolin, and the upright bass, DRESSED IN TUXEDOS (really epitomizes the “grandeur” of the establishment).

While my total 1986 purchases was only \$14 or so, in the nearly 30 years that has passed since I acquired my first local collectible, I have spent tens of thousands of dollars acquiring historical memorabilia, really ramping up the annual investment in the past 5 or so years.

In 2013, I acquired some of my best items in my collection to date, including (among other items): An original oil painting by Steve White that was commissioned in 1977 of the Cabin Creek Covered Bridge in fall foliage/colors, large scale, 28” x 52” framed; actual wood from the original 1867-1873 construction of the Cabin Creek Covered Bridge (I intend to have a print of the Cabin Creek Covered Bridge by Steve White framed with actual pieces of wood – poplar - from the original construction of the bridge, identified by Donald Walker of Arnold Graton Construction as “Splice Blocks”); a small “dry-brush watercolor” by Julia A. Cox of Maysville showing the “View from Front Porch: Maysville

Brick Works, Ohio River and Aberdeen Ohio" (I would guess this to be prior to 1900??); a model hay wagon, highly detailed (wooden spoke wheels, arched fenders, tongue and racks), made of wood, nearly 4' long (counting the tongue) and nearly 18" high (counting the hay racks, front and rear), marked "Forest Wood, 1923, Maysville, KY"; a William H. Cox (Lt. Governor of KY, Maysville native/resident, builder of the Cox Building) pocket watch; an Owens & Barkley Hardware, Maysville, KY straight razor etched "Limestone" on the blade; a J. H. Rogers, Maysville, KY wooden dovetailed whiskey crate; and a rather large colorful sign with great graphics stating "2 miles to Max Block for Clothing, Vanceburg" featuring a hunter loading his shotgun!

In 2014, I acquired a Vanceburg, KY stone jar (Rugless & Bruce); an "Old Squire Flour" Flemingsburg, KY sign; a US 68 cast-iron highway marker dating to the 1830s; a Trinity, KY Jr. O.U.A.M. badge; a Heselton, KY (Lewis Co.) broadside for a horse standing at stud in 1910 (I also acquired two from Fleming County, one for a horse standing at stud, the other for a jack standing at stud, these dated 1911); a charter member listing of the Tollesboro Chapter Improved Order of Redmen (IORM) Massaseba Tribe # 371; a postcard advertising Ferndale Catsup of Maysville, KY, 1910; a "History of Polar Star Lodge # 363 F & AM" (Vanceburg, KY) by Dugan, 1958; a factory employee pin/badge from Wald's, Maysville, KY (employee photo, identified); two nice Fleming County glass paperweights; a Poyntz Bros. Whiskey advertising corkscrew, Maysville, KY; an advertising cover/envelope from Limestone Whiskey advertising the 1886 Maysville Fair; and a Owens & Barkley Maysville, KY straight razor etched "Maysville" on the blade.

In 2015 added a lot of great items too, including an A. M. Lang, Cove Dale, KY advertising envelope; signage from the Sand Hill Christian Church; an I.O.R.M. badge from Stonewall (Bracken Co., KY); a nice store advertising piece from Powersville, Bracken Co., KY; a Browning, Maysville, KY belt gauge; a super mounted photograph of the Muse Bros. store in Plummers Landing, KY; a 1910 Muses Mill broadside advertising a horse standing at stud as well as a 1910 horse dispersal catalog from Sherburne, KY; a seed sack from Fairchance Farm, Mays Lick, KY; and a number of Maysville, KY stoneware pieces (mostly M. C. Russell, but also an "N. Cooper & Power" and an "I. Thomas") and several nice Maysville, KY bottles (water, milk, and pharmaceutical). I obtained a great color photo from the early 1950s of the interior of the Mackey Grocery in Concord, KY, and just recently I purchased what is possibly the best (although I am probably biased) Fleming County postcard in existence: The 1907 Flemingsburg Graded High School football team (to put this postcard in context: It is an extremely early high school football postcard; it shows 14 players and the coach; the coach is holding a football, several players are holding their leather helmets, several players are wearing padded clothing, some players have a primitive mouthpiece strung around their necks, one player is holding a pennant with the letters "FGHS" for "Flemingsburg Graded High School". On the reverse, the card is marked "Published by Dan T. Fisher, Jeweler & Optician, Flemingsburg, KY"; it is postmarked Dec., 1907; and there is a personal note from the sender "This is our football team. Played Saturday night. Got beaten". The only way to improve it would have been to have the names of the players and coach identifying who is who).

I have a large collection of local tokens, including tokens from Tollesboro, Ribolt, Burtonville, Concord, Vanceburg, Maysville, Sardis, and Flemingsburg. I have a large collection of postcards from the five Buffalo Trace counties. From Lewis County, I have postcards from: Tollesboro, Vanceburg, Kinniconick, Stone Hill (Camp Dix), Quincy, Garrison, Glen Springs, Concord, Trinity, Fearis, and Salt Lick Creek. From Mason County: Maysville, Washington, South Ripley. From Fleming County: Flemingsburg, Nepton, Mt. Carmel, Ewing, Elizaville, Hillsboro, Sherburne, and Plummers Landing. From Robertson County: Blue Licks and Mount Oliver; and from Bracken County: Augusta, Stonewall, and Brooksville (I also have one designated as Mason County and one dealing with Bracken County, a political postcard). I also have several dealing with transportation on river and rail. Of more recent manufacture, I have medallions commemorating the sesquicentennial as well as the bicentennial celebrations of the City of Vanceburg, the bicentennial of the City of Augusta, the bicentennial of the Commonwealth of Kentucky, pottery commemorating the 150th Anniversary of St. Patrick's Catholic Church, and I have acquired most of the Maysville Christmas ornaments. I have prints of local interest from Steve White, Mitchell Tolle, Charles Campbell, Roy E. Boone, Dan Adams, Danny McCane,

Don Stanfield, Woodi Ishmael, and Dreama Craig, and I have a small piece of folk art that I believe is the work of Noah Kinney. I have a few pieces of marked cast iron, including a cast iron bell marked "Ball & Witchell, Waysville, KY" (should be "Ball & Mitchell, Maysville, KY", the "M"s being placed upside down, double errors. This bell originally hung at the Goddard, Fleming Co. school), a "Ball & Mitchell, Maysville, KY" horse-pulled plow, and two different "T. F. Norris, Vanceburg, KY" dehorners.

I have original advertisements for Esculapia Springs and Blue Licks Springs (from Blue Licks, I also have a bottle opener, an advertising banner, and another item that I do not know the purpose of), and a spoon (and a copy of an ad --- I have not located an original to date) from/marked Glen Springs. I have an order book and a book written by A. M. Lang of Covedale, KY featuring ducks/chickens/turkeys, and other fowl as well as registered hogs (Mr. Lang sold live fowl as well as fertilized fowl eggs and shipped them across the country). I have several original hand-written deeds and instruments from Lewis County, KY including the original hand-written deed for the "Historic" East Fork Church as well as McKinney's Chapel (I do not know where McKinney's Chapel was situated other than it was in Lewis Co., KY) and a third church that I do not know what it was eventually named or where it was located; four Lewis County, KY hand-written bill of sales/mortgages/agreements for care of slaves (rare as there were relatively few slaves in Lewis County, KY) from the 1830s; a hand-written agreement between a Tollesboro citizen and a "Free Girl of Color" for maid services from the 1866 (immediately after the Civil War); an 1885 document relative to the collection of tolls on the Vanceburg-Salt Lick-Tollesboro-Maysville Turnpike Road; a hand-written lease for a Lewis County sawmill, and other agreements signed by some of Lewis County's founders (the Bruce, Robb, Halbert and Pugh families, among others). I also have auction handbills/broadsides, political advertisements/broadsides, old phone books, etc. I have an Almanac from 1882 from R. L. Gillespie's store in "Tollesborough" (although I have seen this form of spelling in hand-written deeds, this is the only item I have PRINTED with this rather unusual spelling of Tolesboro/Tollsboro/Tollesboro), and a couple of additional almanacs from Maysville and Springdale in Mason County, KY. I have copies of business "directories" printed by papers in Mason and Lewis Counties, KY., and an original newspaper that included an article on the front page about a vigilante mob in Maysville that burned a prisoner at the stake (in 1899)! I also have a large collection of reference materials (books, articles) in printed form as well as some in digital format (I hope to have computers at the museum with which persons can view some of my digitized reference materials, photos of my tokens, and scans of my postcards as well as many that I have been able to save which I do not own that I obtained from other websites or from auctions where I was not the successful high bidder), and a copy of a book relative to Esculapia Springs that may be the sole copy outside of the original held by the University of Maryland/Baltimore collection (my copy is a copy of their book which is the only library that I have been able to locate which had a copy of the book. The curator made a copy for me, but did not copy it as an e-book or "pdf" format, but rather only sent me a paper copy he made directly from a color copier).

I have an extensive collection of private bank notes (pre-1860) from a number of banks that had branches in Maysville and Flemingsburg as well as pre-1930 National banknotes from Maysville. I have 9 old pocket watches from local jewelers including: John G. Fisher & Sons, Dan T. Fisher, and James Fisher (all of Flemingsburg) as well as Wm H. Cox, Blakeborough, and Ballenger (all of Maysville). I have straight razors from Owens & Barkley Hardware, O'Hare Hardware, Frank Owens Hardware, and Frank Owens & Son Hdwe., (all in Maysville) and I have a straight razor box marked Frank Owens as well as O'Hare Hardware, and a cardboard box marked Owens & Barkley pocket knives (I also have a safety razor marked "Lewis County Herald"), and I own three Owens & Barkley, Maysville, KY pocketknives (these date to 1870 or so and are the only three I have ever found. This is significant as I have been an avid pocket knife collector for longer than I have been a collector of local memorabilia), and also have John Primble, Maysville, KY pocketknives from the 1990s, Bulldog knives etched "S & D Enterprises, Maysville, KY" from 1983, and I had some knives made in 2003 tang-stamped "C. A. Stanfield, Tollesboro, KY".

I have calendars, wooden nickels, thermometers, yard-sticks, three Lewis County, KY "store" plates (J. J. Jones, Epworth, KY; Chapman & Louder, Quincy, KY; and Barbour Bros., Burtonville, KY) and several "church" plates. I have a few yearbooks from various schools (I was able to obtain two copies of my father's --- Buford Lee Stanfield --- senior yearbook: He graduated at Orangeburg High School, class of 1957), and I acquired the rosters from all the teams involved in the 1929 regional basketball tournament held at Washington High School at an auction a few years ago. I have paper sacks from flour mills in Orangeburg, Maysville, Germantown, and Brooksville; I have items from the original chartering ceremony of the Tollesboro Lions Club; the original charter for the Tollesboro High School Future Farmers of America; and unissued stock certificates from three Sardis, KY corporations. I have metal tip trays from Brisbois Restaurant in Maysville and G. W. Stamper in Vanceburg, two different pressed metal ashtrays from Turner's Store in Orangeburg, Mason Co., KY, and a pressed/shaped metal match-holder from Collins & Williams Funeral and Ambulance Service of Mays Lick, Mason County, KY. I have three original 1912 copies of O. G. Ragan's "History of Lewis County, KY" (as well as three 1977 reprints) and a copy of the (reprint) 1876 Mason County, KY Atlas. I also purchased the "county-guns", one each from Bracken, Fleming, Lewis, Mason, and Robertson Counties, a Henry lever-action .22 rifle with engravings on the stock, receiver, and forearm of local nature (the court house of each county, as well as a covered bridge in addition to other items of importance to each county) limited to 50 pieces of each county (Bracken County is an edition of 25 instead of 50).

I have wooden crates (as well as paper labels) from Delicious Fruits Orchard of St. Paul, Lewis Co., KY, and canning labels from Ewing, Fleming Co., KY. I have my grandfather's (R. R. Stanfield, an auctioneer for approximately 70 years, of Orangeburg, Mason Co., KY) wooden fold-up sign that he placed on auction sites, as well as a metal sign that was placed at his home (R. R. Stanfield, Auctioneer). I also have three Maysville, KY cream cans, a Dover, KY cream can, and a Vanceburg, KY cream can; a metal sign of W. M. Kinder's "Registered Holsteins" dairy of Mays Lick; and a few Mason County, KY milk and water bottles.

I could go on and on but I think this listing includes the best examples of my collection of local memorabilia; however I have a huge "wish list" of additional items I would like to acquire. I have only a few examples of memorabilia from Robertson and Bracken Counties and there are lots and lots of items from Mason, Lewis and Fleming Counties that I am aware of that I would still like to acquire (in particular: A cast iron implement seat marked "MAYSVILLE", a "Bradford & Zweigart, Maysville, KY" brass combination padlock, a "Naughty Nellie" style corkscrew from Rogers Distillery, Maysville, KY; stock certificates from Toluoso Telephone Company and/or the Bank of Toluoso; a Firebrick, Lewis Co., KY token "Good for 5 bricks"; a "G. W. Stamper", Vanceburg, KY stone jug; some artworks by the Kinney Brothers of Toller Hollow, Lewis Co., KY; banknotes from Augusta, Brooksville, Flemingsburg, or Maysville, KY banks; straight razors from either Owens & Barkley, O'Hare Hardware or Frank Owens Hardware; pocket knives from Owens & Barkley, Maysville, KY; I would like to acquire Lewis Co., KY cream cans from small rural communities; a sharpening stone in small leather pouch marked "Maysville Stockyards, Maysville, KY"; bottles with good paper labels from distilleries in Maysville, KY; bottles from Blue Licks, KY; any tokens from the region that I still lack; and much more!), and therefore I am always on the lookout to find more (I have heard of the existence of a circa 1900 Vanceburg, KY Ohio Riverfront diorama of buildings and features made of tin that I would like to at least see). Thus if you have anything that you think I would be interested in, feel free to contact me. Craig A. Stanfield, info@stanfieldproperty.com, [606-798-2009](tel:606-798-2009) or [606-301-3350](tel:606-301-3350).
