Spongebob's Definition:

F- is for friends who do stuff together!

U- is for you and me!

N- is for anywhere and anytime at all down here in the deep blue sea!

Well, other than the deep blue sea dealy, this childrens' (mostly) cartoon created on the "other coast", pretty much nails the definition that can easily describe some of the fun things to do in New York City.

But there is one thing I can say about fun: "One man's fun is another man's nightmare." As an example, Type A people come to NYC and race to the top of *The Empire State Building* to see just about everywhere around "The Big Apple". While Type B's may be afraid of heights.

1. Type A - You can't go high enough
2. Type B - You can't get down soon enough

There are many resources to help you determine what is fun for you. After all, it is you we are talking about here, not your crazy neighbor Joe, who you gladly left behind in Anytown USA. You

are the one who is taking 2 weeks of your hard-earned vacation time and if it's fun things to do in New York City on your agenda, then so it shall be!

Now I know that using the Internet is taking the easy way out, but if you are looking for the definitive resource for FUN STUFF, you should check out www.NYC.com . They have the “Best Of” everything you can possibly imagine there.
