

Evolving Brains in Quads

Tataryn (2010)

Triune brain:

Physical brain: 5 senses

Emotional brain: interpersonal info and pattern recognition

Intellectual brain: time and space, abstract concepts

3 rd tier	Physical brain actually perceives formation of thoughts
Turquoise	Emotional brain <i>feels</i> patterns of relationships and empathy Right brain with data/intellect Fully actualized and healthy social brain emotional brain bonds and establishes caring relationships
Teal	Emotional brain <i>sees</i> patterns of relationships Left brain with feelings
2 nd tier Teal & turquoise	Integral thinking Abstract concepts and pattern recognition Emotional brain takes the outputs of the higher brain (thoughts & concepts) as inputs for further processing of concepts Sense of self shifts from intellect to emotional
Green	Intellectual brain dominates and is seat of sense of self w/interbrain dynamics Culture Integrates feelings and emotional intelligence
Orange (individual)	Intellectual brain (left brain) Logic and reason
Amber	Emotional brain (right brain) Social layer: happy, sad relationships, attachment storytelling and imaging Morality and voice of God
Red (individual)	Emotional brain (right brain) Survival layer: 1 st is anger; then 2 nd is fear Individual assertion and concept of "other"
Magenta	Magical causality explains observed relationships
Infrared	Physical brain; senses
