Boil Water Advisory To The Residents of Meadowfield Apartments

November 22, 2022

The Town of Summerton advises the residents of the Meadowfield Apartments, located in Clarendon County, to vigorously boil their water for at least one (1) full minute prior to drinking or cooking. A water leak was located at Meadowfield Apartments, which may have contaminated the water system in that area. The leak will be repaired within 1-2 hours and bacteriological sampling is being performed. Once bacteriological samples that are collected by Town of Summerton from the drinking water system serving the Meadowfield Apartments are indicate that the water system is not contaminated, the boil water advisory will be lifted. Residents should continue to vigorously boil their water for at least one (1) full minute prior to drinking or cooking until otherwise notified by the Town of Summerton. Also, any ice made from water which has not been boiled should not be used for drinking purposes. Town of Summerton is presently working to correct the problem. If you should have any questions concerning this Advisory, you may call the Town of Summerton.
