People in the UK Now Face Up to 15 Years in Prison for Viewing ‘Far-Right Propaganda’

UK: The government announced that those who view ‘far-right propaganda’ or ‘terrorist material’ online will face up to 15 years’ imprisonment. [Don’ t worry about the fact that the government will define opposition to its policies or indignation over corruption as ‘far-right propaganda’ . The government says there will be “protections” for people who view the forbidden content by mistake or out of curiosity - journalists, academics, and “others who may have a legitimate reason to view such material.” Again, guess who will decide who has a ‘legitimate’ reason to read news articles like this if a government agent says it is right-wing propaganda?] -GEG

Interesting 30 min video with Robert David Steele . { 30 yrs with CIA} Feels this could well be a Mossad Israel ’ Zionist’ operation. Not sure but very possibly so.

Feels Paddock was a ’ patsy ’.

Feels this is as bad as 9-11; Pearl Harbot and the attack of the USS Liberty in ’67

Says if they cover this up like Johnson did the USS Liberty attack- America is los
