

PRODUCT DATA SHEETS

TIRE GLOSS – VINYL AND RUBBER DRESSING

DESCRIPTION

This is a ready-to-use, odorless, safe and economical product that restores a deep gloss and initial beauty to black and white sidewall tires. It gives long-lasting protection against the effects of weathering caused by the ozone, oxygen and ultraviolet rays of the sun that crack, dull, harden and fade rubber. It leaves a smooth, glossy surface that resists adherence of dust and dirt.

This product also does an excellent job renewing and beautifying rubber moldings, inserts and bumpers.

FEATURES

- **FAST DRYING**
- **LONG LASTING**
- **PROTECTS AND BEAUTIFIES**
- **HIGH GLOSS & NON-YELLOWING**
- **CAN BE APPLIED TO WET OR DRY SURFACES**

USE AND DIRECTIONS

1. Thoroughly clean tire wall with a safe, high quality cleaner.
2. Apply this product evenly by spraying directly on clean surfaces (wet or dry).
3. Do not wipe or rub.
4. allow to penetrate and chemically bond. Will be dry to the touch in approximately 15-20 minutes, leaving a high gloss protection that lasts several weeks.

On aircraft, this product protects and conditions pneumatic de-icer boots, keeps them pliable and effective and retards the formation of ice.
