

ISSUES IN THIS YEAR'S SCHOOL BOARD ELECTIONS

The Northern Oakland County Branch NAACP

The Northern Oakland County Branch NAACP believes that the issues facing the public are too important to not be considered as you decide for whom to cast your votes. Therefore, we urge you to consider the following positions on these important issues and then see which school board candidates in your district reflect these views.

We believe that these issues are among the most important facing your district's school board:

Advocate for and ensure equitable policies to establish education standards for the district understanding that every student deserves high quality teaching, equitable resources, and a welcoming and safe learning environment.

Each district should provide sufficient resources encouraging physical, intellectual, and mental health for overall well-being. Each district should strive for equitable and strong academic development.

All students deserve access to the same high quality learning experiences.

Ensure accountability to advance the success for all students. Each student deserves to experience culturally relevant, student-centered learning, not unjust punishment that negatively labels a student into their future.

Expand policies to equip families and the community to support student needs in an equitable, inclusive, and diverse environment regardless of gender identity, special needs, religion, race, or ethnicity.

Advocate for and ensure every student receives forthright, accurate, and inclusive American History so that the history features our strengths but does not shy away from our flaws.

As you consider these important issues you might want to consult the following sources to find out which candidates' views match your own:

LIST

1. Candidate website
2. Email/text/call the candidate. That information is on Oakland County Clerk Nov 2022 Election website
3. League of Women's Voters www.vote411.org
4. Candidate social media platforms
5. Oakland County Clerk website. Please go to page 22 of 33 and scroll to your school district
