

Many toothaches

Knee pain

Dermatophytes

showers and shoes

October 2017

The harvest is plentiful, but the laborers are few, therefore pray earnestly to the Lord of the harvest to send out laborers into HIS harvest. Matt: 9:37-38

The Team

The Life Clinic under RMO with Cornerstone Community Center under Pastor Chris Simmons, continues to meet the needs of each individual, one person at a time—God’s way when we take time to hear what the Lord is saying. HE is there for each one when we know it, and most importantly, when we do not even realize HE is “right” there.

Praying for God’s love...

The pictures on this page represent some of what one typical day at Life Clinic in September was all about. The numbers seen continue to overwhelm the clinic but yet seem to be just right at the same time. Yes we see with our physical eyes, but we also pray to see with our spiritual eyes to know what God wants.

It is a continual growing process.

Receiving meds

Free over the counter meds and free socks

.....and medically treating

The Team

Doc Rock was blessed to attend the Hostile Environment Awareness Training Course in Oregon the last week of August into September. The training was extremely valuable developing skills to handle and overcome situations when traveling, giving humanitarian aid, and ministering in foreign countries. They helped understand what to do if kidnapped, caught in a cross fire or under a direct shooter, if involved in land mines, carjacking, medical catastrophes, with much more. We were involved in scenarios utilizing those skills to save lives, including our own. Many bruises later we finished the course.

The Owusu-Sekyere family

RMO will be in Ghana, Africa, ministering with Pastor Ben and Marion Owusu-Sekyere at Kings Village when you read this. Kings Village received a donated boat to go up river to deliver medical care and most important to share the Word of God and the love of Jesus.

MMI Ministries

There is much need for prayer and financial help after the Hurricanes. RMO is helping by donating financially through local missionaries traveling to assist and through the anticipated influx of patients into the free Life Clinic. One ministry doing a lot to help the smaller communities left behind in the distribution of financial help and supplies is MMI Ministries under Luis Gomez. If time allows RMO plans to travel and join while dodging 'squitoes.

Lotza water..lotza mosquitoes

If you are considering a trip in 2018 with RMO to help those less fortunate in foreign lands or if God has laid a country on your heart, please contact us. The RMO Board has authorized some scholarships with certain criteria.

RMO Schedule 2017/2018 -Lord willing

November -Brazil

January 2019-is open now

March -Nicaragua boating to different islands on Caribbean Grace

July- looking at South Africa

September 2018-Ghana, plan early

And more in 2018 as we pray and plan
