2.4) Please provide any additional comments you would like to convey to the instructor about YOUR performance in this class.

- Even with reading the provided materials and paying attention during class I had a really difficult time grasping the concepts presented.
- I believe my performance is in this class can be attributed to my strong interest in international politics and how different lenses/ paradigms can affect how we view our world.
- I enjoyed having to participate in his class. I also enjoyed having to actually think in this class.
- I enjoyed this class a lot. I tried very hard on doing my assignments to the best of my ability and I think that I accomplished that.
- I felt that there was a lot of prior knowledge I needed coming into the class and occasionally felt behind everyone else during discussions, even early in the course.
- NA
- There were two times where I was having a hard time understanding two of the theories and how to apply them. I decided to meet with the professor and he was really helpful. He helped me understand it better and many of the time he would also ask the student if they understood the material in class and if half of the class didn't he would find ways to help students and my self understand.
- This class has opened my mind in ways I did not think a class ever would.

3. *The Professor*

3.8) Please provide any additional comments you would like to convey about the professor's teaching:

- Always came to class prepared and happy to teach us. One of the best professors I've had at Quinnipiac.
- He was very interested in the student's point of view as many of the theories were a bit confusing. The professor was very interested in what students had to say.
- I appreciated how Professor Scauso taught the class in a way that the students were an active contributor to the class which I think was necessary for this type of class due to how extensive the material was.
- I like the sticky notes paraticipation system, it motivated me to talkmore since I knew my participation meant something
- I loved this class and your teaching style
- Professor Scauso is possibly my favorite teacher/professor I have ever had in all of my years of schooling. He is brilliant, fair, open-minded and extremely passionate about what he teaches. He was seriously an amazing addition to Quinnipiac University and I believe he can contribute to this university greatly for years to come.
- Professor did an excellent job conveying points and comparing different approaches to International Relations. My understanding of each topic only improved as the semester continued and they were compared to past topics.
- Professor was fantastic. He knows everything regarding to this class and is always available for help if needed. Classroom is engaging and he makes the material, a difficult subject, relatively easy to understand. If I could take him again, I would.
- Scasuo is an amazing professor. I was worried to take this class because peers in the past said it was difficult, although I have had no problem. Scasuo is able to explain the same topic in a hundred different for all of his students to understand the topic at hand. He is a far and tough grader, but it makes me want to work harder. He is extremely intelligent and has peaked my interest about international relations. I would take thousands of classes with this man if I could.
- Some things were just very unclear. It is difficult because I don't think it is a reflection of the professor but the content of the course. Some of the theories were complicated and never simply laid out
- The professor did an excellent job going over these very complex concepts. He highlighted time and time again that he understands the material we were addressing was not equivalent to an intro course. He ensured us his standards were lower but he still pushed us to do

our best.

- Very intelligent man and knew a lot about what he was talking about.

4. *Class Materials*

4.3) Please provide any additional comments you would like to convey relevant to class materials:

- I enjoyed the book that was used, and thought that the test were fair and went perfectly with the course.

5. *The Course Overall*

5.3) Please discuss any and all strengths and weaknesses related to this course:

- Great teacher and resource to the students. He was always asking us if we had questions or needed help. Absolutely quality teacher and hope to have him again in the future.
- I do not recall any weakness related to this course, I loved every minute. A strength, is the professor without a doubt
- I have little to no constructive criticism for this course other than I highly recommend he gives out study guides for his test because I would have done quite poorly if I hadn't been pre-prepared for it. In lieu of this, he could have more questions on the test, if he likes. Professor Scauso is a beyond wonderful teacher and he deserves comments relative to that. I would most definitely take him again and recommend him to students dedicated to learning.
- Like I said earlier, felt like there was prior knowledge I needed for this introduction course.
- Professor was amazing. He did a great job teaching the material and made himself available to students much more than other professors. Great job!
- Sometime the topic of the class would go beyond a 101 course, however, he didn't test us on those conversations in class which was very good. He is a very great teacher.
- This class taught me diverse knowledge of the outer world. I am prepared to help the voices of others be heard and to help society. I am ready to make positive changes in the outer world!
- This was an excellent course! Professor is an amazing instructor and always made sure everyone had the chance to ask questions and understand each approach. I honestly cannot point out any weaknesses. I would 100% recommend the course to people interested in international politics!
- everything in this course was great. there weren't any weaknesses that I found in this course.
