

ZONNNA

Naturally soft

- ✓Incomparable lightness
- ✓Cashmere-like soft touch

LUXURY COTTON

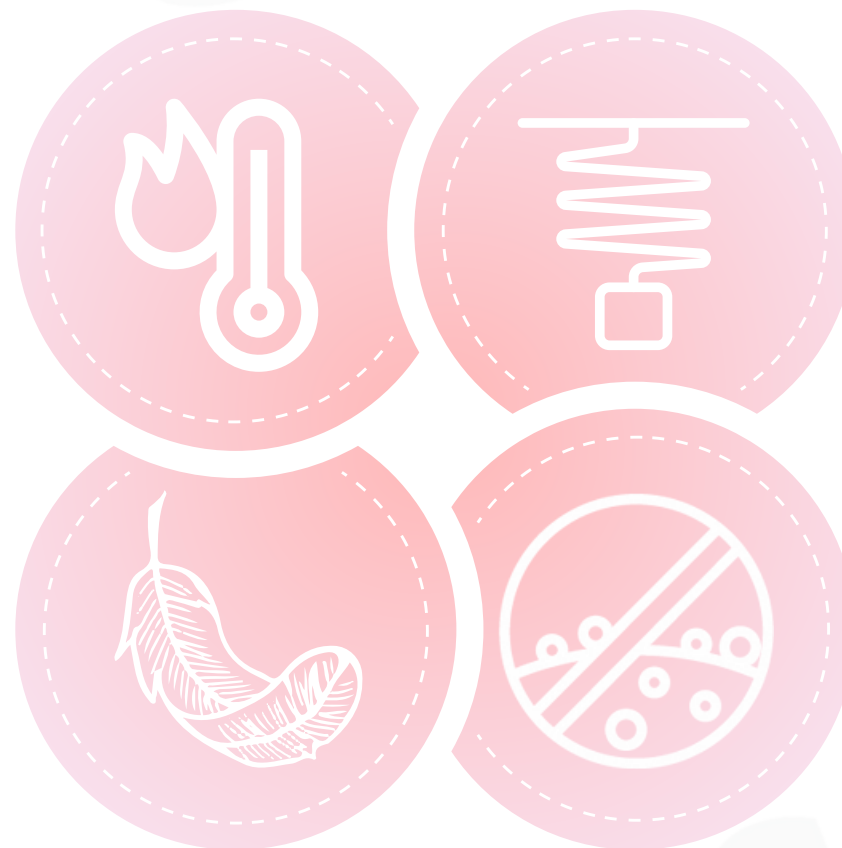

ZONNA MAIN PERFORMANCE

PRODUCT TAG

Fluffy and warm

lighter warmth

Warmth is comparable to cashmere

Soft and elastic

just right of elasticity

Comfortable for sports

Lightweight and close to the skin

30% less fabric weight than comparable yarns

Not only light, but also caring for your skin

Anti-pilling

pilling resistance Level 3- level4

resist-rubbing will stand the test of time

ZONNA VS WOOL VS COTTON

ZONNA

VS

WOOL

Using new spinning technology

Co-drawing with high-performance long fibers with no twist fibers to be warmer and softer with more cost-effective

wool twist

Twisted fibers are easy to eliminate the natural function of natural fibers, Especially the effect of insulation and warmth

ZONNA

VS

COTTON

Using new spinning technology

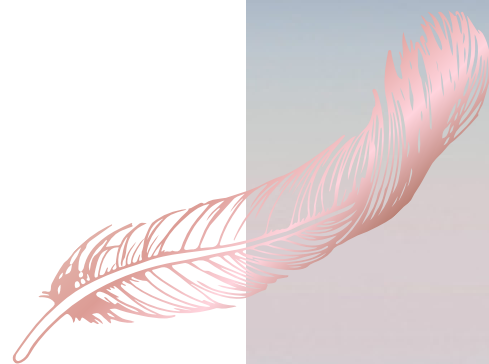

Elasticity: **30%*** higher than pure cotton products

Warmth: **15%*** higher than pure cotton products

Ordinary craft

Cotton products are drier and fresher
Not suitable for season changing or winter wear

*Data sourced from JH TESTING SERVICE

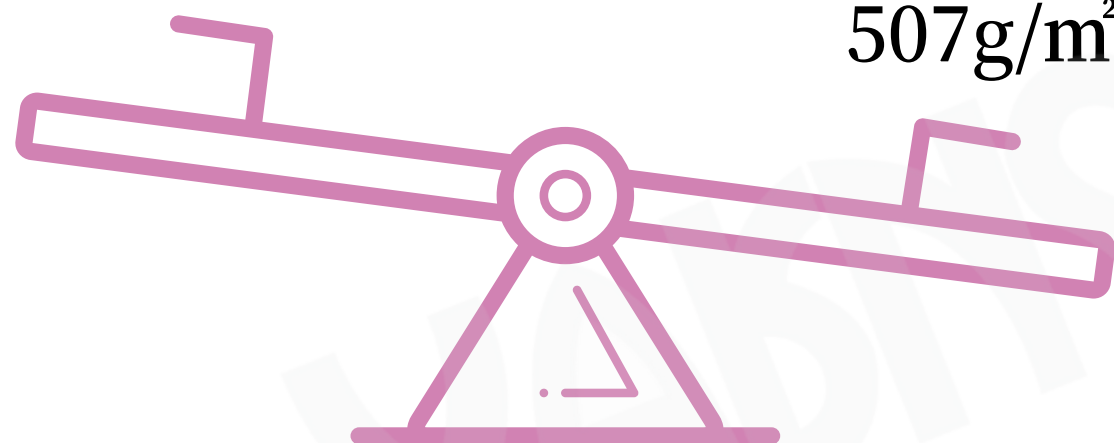

SUPER LIGHTWEIGHT

Fluffy and light
like cotton candy

Fabric weight comparison of the same needle type

ZONNA
355g/m²*

其它产品
507g/m²*

The weight of the
same garment with
the same needle type
is reduced by about

30%*
