

# Affordable Disaster Restoration Ultrasonic Contents Cleaning Systems

**Any Size • Any Feature • SAFETY FIRST**

Hessonics Ultrasonics has prided itself for over forty years of delivering the best ultrasonic systems engineering, design, and manufacturing. We don't copy what our competitors do for a "me too" approach to client needs. Hessonics is proud to announce the release of the **3BSU Ultrasonic Cleaning System**. The 3BSU system uses a standard 3 bay sink system that has been modified into a complete ultrasonic content cleaning line production system. Four different configurations to choose from.

## Features

- Uses Pre-Manufactured Stainless 3 Bay Sink
- Ultrasonic Systems Designed by our Engineer
- Marine Style Counter tops
- Single point power connection (120VAC)
- NEMA electrical box w/ EPO (emergency power off)
- Thermostatically controlled water heater *option*
- Particulate filtration pump with "Power Flush" *option*
- Two 500 watt generators
- Recirculating Deionized water rinse station *D/I option*
- Extendable warranties and service contracts

## Benefits

- Reduces manufacturing costs for affordability
- Intelligently designed equipment for your use
- Keeps the water in the tank and off the floor
- Less expensive electrical reconfiguration
- Low 24 volt switching for safer operation
- specific cleaning temperatures for specific items
- Keeps tank water cleaner and easier for emptying
- More reliable running up-time
- Prevents water spotting, electronics
- Piece of mind in your investment

## MODELS

**HS-3BSU-A:** Basic model as you see it with 1,000 Watts ultrasonic power & 2 sprayers

**HS-3BSU-B:** *Same as "A"* with pump filter & heater for the ultrasonic cleaning tank only

**HS-3BSU-C:** *Same as "B"* with Pre-Wash bubbler, pump filter & heater for ALL tanks

**HS-3BSU-D:** *Same as "C"* and includes professional De-ionized water system for Rinse tank

\* Specifications subject to change without notice.
