

## Items Wags 2 Wishes Supply to Foster Homes

All unused items should be returned when the dog is no longer in the care of foster home. If you are expecting a new foster dog with W2W shortly after, you may keep the items and use for new foster dog. If you are no longer planning to foster for W2W all items **MUST** be returned to Wags 2 Wishes within 3 days of the foster dog leaving the home.

- 1.) Dog Food (dry and wet)
- 2.) Bowls (when needed)
- 3.) Treats/Toys
- 4.) Cage (size determined by breed/age)
- 5.) Puppy pads or newspaper
- 6.) Blankets/Towels
- 7.) Paper Towels
- 8.) Bleach
- 9.) Meds/Vet Care (as a foster you are expected to administer meds / bring to vet appts as needed. Vet appointments are **ONLY** allowed to be made by an authorized W2W Board Member.)
- 10.) Grooming/Baths (at our facility by request)

# Top 10 "Should Do's" with a new foster dog.

1. Baby gates work wonders, and dogs should be kept separately and gradually introduced during SUPERVISED periods.
2. Cage training is required by Wags 2 Wishes. When you can not be home, please place your foster in a secure cage that is provided by W2W.
3. Keep each dog on leashes for the first week (or longer if needed) as it is easier to "break dogs up" should a fight occur.
4. Feed Separately (until you are 100% sure neither one is territorial about food).
5. Never allow foster / personal dogs unsupervised in a fenced yard and **NEVER** allow your foster dog to walk out of a fenced yard unleashed.
5. Put all toys/bones away. We do not have a history on your new foster dog and it is very likely your current dog/dogs will not want to share their toys/bones. These things should **ONLY** be given if the dogs can enjoy separately / safely avoiding any fights.
7. Make sure each dog has its own bed/cage/ sleeping spot - teach and reinforce "place" with a treat on their respective sleeping area.
8. Puppy proof your home removing and securing all exposed wires, shoes, etc. Puppies WILL chew and some older dogs will as well. It is important that you watch and pick up any chewing hazards to avoid injury.
9. Teach basic commands (sit, stay, down) and potty outside. It is your duty as a foster to provide basic training and to prepare your foster for their forever home.
10. Praise existing dog/dogs - just as much as the new foster dog - provide each dogs with equal amounts of love, affection.

I have read the above and agree to exercise care and caution when introducing my new foster dog to their new environment and follow all suggestions / guidelines set in place. I further agree to ask question and contact Wags 2 Wishes immediately with any concerns or issues should they arise.
