## Permission to Excavate within City streets or alleys

In accordance to Chapter 52 Reinbeck City Code, Contractor must obtain written permission to excavate in city streets or alleys.

---

### 52.2 PERMISSION REQUIRED.

No person, firm or corporation shall undertake any excavations in the streets or alleys of the City without first obtaining written permission of the Superintendent of Streets, a copy to be filed with the City Administrator's office.

### 52.9 TAMPING AND FILLING.

In refilling an excavation, the earth must be laid in layers and each layer tamped thoroughly to prevent settlement, and any street, sidewalk, pavement, or other public property that is affected must be restored to as good a condition as it was previous to the excavation. With the permission of the Superintendent of Streets, puddling will be permitted provided that the same results in a satisfactory fill. The person making excavations must maintain the affected area in good repair to the satisfaction of the Superintendent of Streets for three (3) months after refilling.

---

By signing permission form Contractor agrees to and understands the Reinbeck City Code.
