

REVAMP

MAKE YOUR WARDROBE WORK FOR YOU

August 2010

Dear Revamp Clients and Friends,

I hope you have had a relaxing summer.

The summer sale racks have been picked through and it is back to school, back to work and back to your fall clothing. It is looking like metallic and neutrals have worked their way from spring to fall, which makes the shift to a new season all the more seamless.

Do you dread having to re-work all your fall/winter items for another season? Well, I love it and can't wait to help! Sure, there will be things that have had their life span but plenty of what you will pull back out can be used in new and exciting ways. The truth is, with a little creativity, many of your summer pieces can be worked into your fall repertoire and will produce a refreshed fall look to clothes you have been wearing for years. After all, that's *Revamping!*

I wish you all a wonderful fall and hope I can help you and your clothes transition into the new season.
