

# Stimulate Yield Enhancer™

Stimulate Yield Enhancer increases crop production with less fertilizer, less water and less pesticide - increasing yield, quality and return on investment for growers.

Stoller products are designed to help plants function more efficiently and achieve their full genetic potential.

Stoller products are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices for maximum yield and quality.

*Always read and follow label instructions.*

## Stimulate Yield Enhancer Features:

- EPA-Registered Yield Enhancer
- Precise combination of three plant hormones at the optimum ratio for maximum effectiveness
- Provides quick recovery from transient stress
- Increases yield & quality

## Stimulate Yield Enhancer Benefits:

- Enhances cell division, differentiation & enlargement
- Boosts root growth & vigor
- Improves nutrient utilization
- Mixes well with other foliar fertilizers & pesticides

## Application Timing

- Seed Treatment: 2 oz/cwt of seed
- In-Furrow at planting at 6-8 oz/A (can be used with starter solutions)
- Foliar on corn: 8 oz/A at V/R transition  
Foliar on soybeans: 8 oz/A at V/R transition
- Fungicide Sprays: apply at 8 oz/A with the recommended fungicide rate and timing
