

Camera Barricade System

The camera barricade system allows remote operators to prohibit access to rotating equipment. The camera barricade system works by setting up specialty cameras to monitor any entrances to the rotating equipment and when an individual is sensed crossing into the equipment zone, the system stops and locks-out the rotating equipment.

Features:

- Stainless Steel
- IP66 rating
- Nema 12 4X enclosure
- Interfaces with most industry vendors' remote stands
- Panel Dimensions: 7" x 9.4" x 5.9"
- 180 mm x 240 mm x 150 mm

Benefits:

- Meets Occupational Health and Safety Act R.R.O. 1990, REGULATION 854 Sec 185(2)
- Meets CSA Standard Z432 – Safeguarding of Machinery
- Ruggedized System – Built for harsh mine environments
- Strong reliability
- High availability
- Can be integrated into most existing remote stand systems
- Eliminates the need for physical barriers
- Tamper Proof
- Video Recording Option
