Do you or your family member or friend have an ongoing health condition? Do you want to be more active and social? Healthier Living is an award-winning program developed by Stanford University to help you. In this small group you will learn to:

- Manage your health to lessen its impact on your life
- Lower anxiety and pain, sleep better and have more energy
- Communicate better with doctors, friends and family
- Set goals and problem solve for better health

Join us to put life back into your life!

This program is brought to you in partnership by:

Funding is provided in part by the generous support of The Towbes Foundation.
