ALBIREO ENERGY ACQUIRES GxP Automation

Acquisition expands Albireo Energy's life sciences solutions

Chelmsford, MA, June 22, 2015 – Albireo Energy, LLC (“Albireo Energy”) today announced the acquisition of GxP Automation (“GxP”) of Chelmsford, Mass. GxP designs, installs and maintains building automation systems, GMP monitoring solutions, and related services to global life sciences and commercial companies in the northeast. Since its inception, GxP has strategically focused on the life sciences market due to the mission-critical nature of environment control and monitoring of pharmaceutical and biotech research labs and production facilities.

“The acquisition of GxP immediately enhances Albireo Energy’s capabilities in the life sciences market. Their extensive experience in delivering GMP-compliant solutions combined with their GMP/GLP monitoring and reporting expertise will be leveraged nationally,” said Phil Bomrad, CEO of Albireo Energy.

“GxP has established an unparalleled reputation in the life sciences market throughout New England,” said Jay Zaino, President of GxP Automation. “Being part of Albireo Energy will allow us to continue to expand geographically and leverage their national footprint to deliver solutions to strategic life sciences customers in other parts of the country as well as deliver expanded services to our existing client base.”

GxP will do business as Albireo Energy and continue to be led by President and co-founder, Jay Zaino and Vice President and co-founder Mark Bryan. As part of Albireo Energy, GxP will expand its service offering to include energy services and retrocommissioning, helping customers reduce operational costs while providing an efficient and productive work environment for employees and building tenants.

About Albireo Energy

Albireo Energy provides building automation solutions and energy services to commercial and institutional buildings nationally. Their solutions and services help building owners and managers improve efficiency and reduce operational costs while improving comfort for tenants. Through its operating divisions, AE has a history of providing exceptional solutions to mission critical facilities such as data centers, labs, military installations, and hospitals. Their service portfolio includes energy efficiency, demand response, energy procurement services and smart building solutions including building automation installation and optimization, systems integration, metering and lighting. www.AlbireoEnergy.com

About GxP Automation

Founded in 2004, GxP Automation, LLC provides turnkey facility automation and GMP monitoring systems with full automation related commissioning and validation services. The Company provides these services to the life sciences, commercial, and other vertical markets for clients both in the New England region and nationally. Unique to other solutions providers serving the industry, GxP’s extensive experience with the quality requirements of implementing critical HVAC automation solutions, offers customers the opportunity to provide cost effective, compliance solutions for control, monitoring, and integration of automated systems serving GMP and critical facilities.
