Interactive Summary:

- **Level of Interactive Complexity can be tailored according to the production budget parameters**
- **The Interactive modules are balanced between Educational and Entertainment:**
 - **10 Entertainment Modules**
 - **Gaming/App-like engagement**
 - **The Entertainment modules are balanced between gaming skills/competition, interactive fun and the creative arts**
 - **6 Educational Modules**
 - **Pop-ups displaying additional information about the various subject matter (internal, not internet links)**
 - **Also, animation and video segments provide further depth and understanding**
- **The Ancients could open a hierarchical interactive game, opening up a new level overtime a new ancient appears throughout the series, or each ancient could be a separate entertaining experience**
- **Reader creates the physical look of each character, according to a set of given parameters, based on their ethnicities**
 - **The character creation is activated when the reader clicks on the character's open**
 - **Three characters throughout the series do not have their own opens, so they are accessed through either of the two main character opens, and/or from the QwiffMaster's Poetry Book, for they have poems written about them**
