**PARENTING TIP 108** Children learn about life and themselves from every interaction they have with others, but the most profound impact comes from family. A study published by Psychology Press titled, Social Understanding and Social Lives, argues that the quality, as well as the quantity of conversations adults have with their children concerning thoughts and feelings, helps children’s social understanding to grow. As parents we have the ability to help our children identify, cope with and manage their thoughts and feelings. We do this by helping them recognize thoughts and feelings as they arise and then by providing them with ways to manage their inner selves. This leads to children healthy in mind, body and spirit - so talk it through, your kids are listening! (From Family Ministry Office, 905-528-7988 ext. 2250)

**MARRIAGE TIP 88** The fall harvest is a result of work undertaken throughout the spring and summer. Watering, nourishing, protecting from insects and the weather all contribute to a healthy yield. Why then do we sometimes forget that relationships too need to be cared for? Do we nourish, protect and nurture our spouses? Care for them gently and speak softly? As St. Francis de Sales said, “The worst way of speaking is to speak too much. Therefore speak little and well, speak little and gently, speak little and charitably, speak little and amiably.” A harvest of love can fill every relationship, but it takes commitment and purposeful work to keep our love strong.
