

Intermediate Engineer – Edmonton

Scheffer Andrew Ltd. is a medium sized engineering and planning consulting firm, which has operated in Western Canada, primarily Alberta, for over 40 years. Our work focuses on municipal, land development and transportation engineering.

Scheffer Andrew Ltd. is currently seeking a Junior/intermediate Engineer with land development experience to join our team. The successful candidate should have 3-5 years' experience in land development engineering design.

Duties of this position may include, and are not limited to:

- Assistance with design of land development projects that are assigned, including coordination with sub-consultants and City approval authorities as required.
- Managing projects from preliminary engineering to construction completion, applying your technical knowledge and experience. Delivering projects within established timeframes and budgets.
- Water resources engineering for storm water management projects and water distribution systems.
- Preparing engineering design drawings and design reports.
- Computer Assisted Design duties, using AutoCad.
- Contract administration for construction projects in the Edmonton region, including close liaison with City Inspection staff
- Coordination with the Clients as it falls within your scope of work, to ensure the Client's needs are fulfilled.
- Planning, organizing, and directing resources to best serve the needs of our clients.

The ideal candidate will have:

- A degree in Engineering from a recognized school with a minimum of 3-5 years of civil engineering experience in land development.
- Be immediately qualified to be registered with APEGA or ASET as a P.Eng, EIT, CET, or P.Tech.
- Knowledge in municipal, water resources, transportation, and land development engineering design, including design of municipal and related infrastructure including sewage, water, roads, storm water, and drainage.
- Experience in construction and contract administration.
- Ability to build relationships with new and existing clients.
- Exceptional leadership and communication abilities.
- Experience in leading and dealing directly with design teams, clients and approval agencies.
