

Teen Program (TP)

There will be teen services to encourage the youth and open the door to allow teen fellowship. This will include educational projects, movie days and game days. The teens will be able to enjoy themselves in a safe environment. A time will be set aside at the community center for all teens to have “Talk-About-Sessions”. These sessions will allow the teens to have a platform to express their selves, talk about peer pressures and receive opportunities for mentoring. With all the peer pressures that the teens experience and the access that teens have to all the good and bad information on the internet; it is critical to have safe venues to distress from negative external stress factors.

Part of this program would be to build up and develop self-esteem, self-worth, and self-love within the teen population. A time will be set aside where the teens can ask questions to their mentors and receive answers. The mentor contact for this program is Shieniece Potter at shieniece.potter.ecm@gmail.com , or you may send a message to her through Esther Community Ministries website “contact us” page. Ministerial staff will also be available to answer questions or concerns.

Check the **Calendar** page for TP days scheduled.
