## Help! Synchronous Ideas/Lesson Plans needed

Members,

Teachers have contacted me recently because they need new inspirations regarding synchronous lessons. Can you share your synchronous ideas or lesson plans (other than Zoom) that you are using with me? I would like to gather them together and send them out to all the teachers especially now that we are going to start hybrid teaching and will be doing more of this for the group that is not receiving in-person instruction. It can be an app, a sample Lesson plan, or examples of a lesson you would share with the students that they would do. I can take your name off if you like. Thank you. I have always been that teacher who believes sharing with each other is important. A lot of you are doing amazing things, it's your time to shine! Please email me at [avuta\\_pres@gmail.com](mailto:avuta_pres@gmail.com) with anything.

Dr. Kristy Croft Ed.D
