Direct Importing That Works For You

A full shipping container is 40' long. You may order either a full container or a half container. Half container orders will be paired with other half container orders to save additional freight.

1/2 and full container orders are shipped direct from our factory to your door. Prices include all delivery and importing fees, except each half container order will be assessed an additional \$200 handling fee.

We will work closely with you to put together the pottery program best suited for your market. We offer a great variety of styles and colors that you can mix and match to create the best mix of product for you. Small minimums per item results in maximum flexibility.

All of our pottery is frost- and freeze-resistant for long-lasting durability.

All orders are palletized and clearly marked with a packing list on the outside of the pallet, making unloading easy. Pre-pricing is available at no extra charge using your designated retail prices. We provide an easy-to-use form for this process.

Orders must be placed by September 6, 2013. Orders placed after this date may be subject to shipping delays.
