

HEARING SCREENINGS

Do you often ask people to repeat themselves? Has your spouse or other family member told you how you

speak loudly or asked you to lower the TV volume? If so, you might be experiencing hearing loss. It is possible that it could be earwax

buildup or a minor condition, but a long-term untreated hearing loss can lead to serious problems later in life. Learn what causes hearing loss and how it affects your health and relationships at FREE **Acute Hearing screenings**. An Acute Hearing expert will assess your hearing health.
