

USA PROUD RIDERS

92 Airport Blvd Freedom, CA 95019

Good morning my fellow citizens.

As the grant administrator for USA PROUD LEARNING CHALLENGE, please welcome the California Dreamer academic calendar to post in your classroom. The heart-bear-fireworks symbol is designed as the seed to inspire classroom learning for caring and grow community awareness.

Our dedicated leadership has contributed the 2017 innovation in the new HSS Framework with the inclusion of "Around the Horn" maritime influences of Pacific Coast geography.

Teens in 8th Grade 19th Century US History now have access and equity to the global geo-political system for basic knowledge of landscape, food, technology, movement and settlement. Other grades (3-5, 9-11) will also benefit with this lesson content.

I look forward to expanding communication for collaborative caring and learning. Simply, the grant support will now create and share teaching tools. The outcome will engage students to open local windows to worldwide connections and develop skills for critical common-core inquiry.

To deliver this result, on 2017 February 25, we will create the first statewide celebration - Golden State History Days - for schools and towns to guarantee learning the founding of the original 25 counties.
