

The Monitor Dynamic's iTRUST Certified Integrator (iCI) Program is designed for integrators wanting to enhance their portfolio by offering the latest access control technology manufactured by Monitor Dynamics. Our iCIs must be committed to providing the best customer service available. Our iTRUST Certified Integrators receive custom training, branded sales and marketing collateral, case studies, technical documentation, and technical support.

What are the Features & Benefits of the iCI Program?

- Industry Recognition for your expertise in IP access control
- No monthly/annual iTRUST service fees (fees you may bill your customer, MRR)
- Eligibility to bid projects that require iTRUST Certified Integrators
- Discounted Monitor Dynamic's partner access control hardware
- Demonstrated Competence in IP access control
- iTRUST Certified Integrator Certificate for your business
- Listed as an official iCI on the itrustaccess.com web site
- Technical Support
- Technical Documentation as it relates to iTRUST
- Project and Customer Referrals from Monitor Dynamics
- Case Studies identifying iTRUST Access Control Facility Solutions

How to become an iTRUST Certified Integrator?

- Attend an official iTRUST Product Demonstration overview in San Antonio
Attend an iTRUST Product Demonstration at an ISC West or GSX (formerly known as ASIS)
- Schedule an iTRUST overview at Monitor Dynamic's Headquarters in San Antonio
- Schedule an iTRUST overview at your location or during an iTRUST installation at your customer's site (fees may apply)
- Initial installation of a minimum of 2 iTRUST access control doors/points

For more information, contact us at 210.477.5400 or E-mail:
MonitorDynamics@gmail.com.

In order to maintain your iTRUST Certified Integrator designation, you must install a minimum of 16 iTRUST access points annually from date of iCI recognition.
