LIFT PLUG

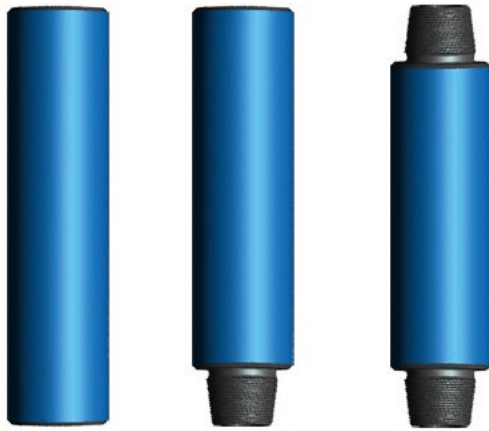

SAVER SUB

Saver Sub:

Our saver subs are designed to save the Kelly threads and casing. They can be reworked many times before becoming Damaged Beyond Repair (DBR).

Subs and Crossovers

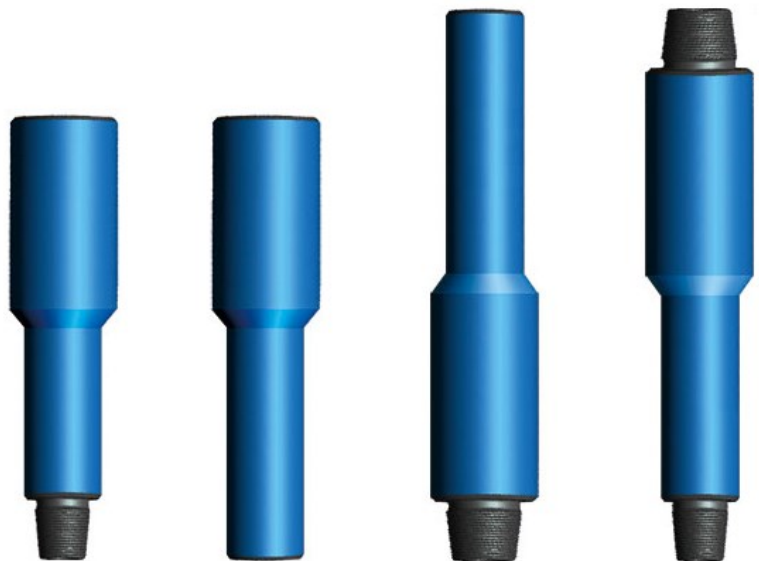

Crossover Sub:

Our crossover subs are used to adapt from one type connection to another. We also offer them in non-magnetic material.

CROSSOVER SUBS

Reducer Sub:

Our reducer subs are designed to change the diameter between two sized tools. We also offer them in non-magnetic material.

REDUCER SUBS
