

## CONFIDENTIALITY AGREEMENT

A Restorative Justice Conference offers participants the opportunity to sit face to face in a safe, respectful circle to discuss any incident or conflict that has caused harm to others. It is a sacred space where all should be able to talk freely without fear of retaliation or repercussions. This also means that there is to be trust among those present to not speak of the details of this discussion outside of this circle in order to protect the confidentiality of all those present and to keep from doing more or greater harm to others.

Facilitators agree that any documents produced during this discussion in schools are for educational purposes only and are not intended to be subpoenaed by a court of law. Facilitators, however, are required by law to report any knowledge which may be revealed that indicates any party is in danger of bodily harm.

I AGREE TO KEEP WHAT IS SAID HERE CONFIDENTIAL.\*

*[\*Individual students in the RJ Conference may speak to their own parents/family about the incident.]*
