RE: Letter of Recommendation for Baird Builders, Inc.

To Whom It May Concern:

Baird Builders, Inc. did excellent work on a recent custom renovation project in our office building. They are experienced professionals who I can confidently recommend to anyone looking to hire a general contractor.

In 2014 we initiated plans to remodel and expand our office suite into the adjoining suite, which required demolition of some existing walls, construction of new custom staff work stations, installation of custom cabinetry, carpet, and paint. Baird Builders worked cohesively with our designers and consultant to fulfill the plans as intended, and hired reliable sub-contractors to complete the necessary details.

The work was completed efficiently with little interruption to our daily business operations and we were able to remain open for business during the entire project. Their professional staff communicated with us throughout the project to ensure that we were informed about how much progress had been made, and accommodated unexpected nuances that arose during the process.

I have known Mike & Cindy Baird for many years and will happily work with them in the future if the opportunity presents itself.

Sincerely,

Anne V. Roediger, CPA
