Subject: Goleta Creeks Protection

I support the recommendations made by the Environmental Defense Center and Urban Creeks Council to adopt the California Coastal Commission's language for analyzing when the 100-foot setback is feasible for new developments. This language was adopted by the County of Santa Barbara in its Coastal Zoning Ordinance and is in the Eastern Goleta Valley Community Plan. Please direct staff to incorporate the California Coastal Commission's language in the New Zoning Ordinance. The New Zoning Ordinance must be consistent with the City's goals to maintain, enhance, and restore its precious creeks and waterways.
