Re: Outstanding Technology Educator

Dear Ms. Parks,

The classroom teacher that has been selected as Lakeshore Elementary Outstanding Technology Educator is Jerrod Wheeler.

Jerrod is in his second year at Lakeshore and teaches fifth grade Science and Social Studies. Jerrod does an excellent job of integrating technology across the curriculum by providing the students with a technology-rich learning environment. To maximize and enhance the learning experience, Jerrod makes good use of the technology provided at Lakeshore, which includes: Dream Writers, School Performance System, Power Point Presentation, Game Show Presenter, Brainchids, and various multimedia software. Along with teaching the curriculum targets, Jerrod constantly encourages students to increase technology skills which are essential for success in the 21st century.

Additionally, Jerrod serves as the technology co-coordinator for Lakeshore Elementary and assists with the technology needs during inservice and faculty meetings. As technology co-coordinator, Jerrod is central in the effort to educate other teachers by presenting and promoting new technological opportunities for enhancing instruction and by helping teachers implement technology into their classrooms. Jerrod has also designed an outstanding power point presentation that promotes the educational opportunities offered at Lakeshore Elementary.

I believe Jerrod is an asset to Lakeshore Elementary School and the Ouachita Parish School System. His knowledge of technology and his dedication to the daily inclusion of technology in the classroom make him an outstanding technology educator! Please take his contributions into consideration when selecting the Ouachita Parish Outstanding Technology Educator. If you have any questions, please do not hesitate to contact me.

Sincerely,

Sarah McDaniel, RMC
