### Pregame Solutions Wireless Telestration Remote

With all of the functionality you're used to....**AND MORE!**

**Left Mouse.** Can be used to Telestrate, or perform normal left mouse functions.

**Cursor** can be turned on or off.

**Virtual Laser.** The cursor is changed to a red dot, and controlled by moving the remote. Visible on all types of displays. Eliminating potential eye injury.

**Right Mouse** performs normal right mouse function.

**Zoom.** Open a zoom window and move it around on the video by moving the remote.
