

2017 Indiana College Substance Use Survey

*All Indiana colleges are invited to participate,
at no charge.*

Don't miss this opportunity to collect data on students' substance use, reasons for and consequences of use, what students think their peers are doing, and more. You'll receive a customized report of your campus results, comparing your results to the statewide data and analyzing the data by gender and age categories.

Surveys must be completed in Spring 2017,
before your spring break.

To participate in the survey, or for more information, please contact:

Rosie King

Indiana Prevention Resource Center

(812) 855-9150

icsus@indiana.edu

The survey is funded by the Indiana Collegiate Action Network through a contract with the Indiana Family & Social Services Administration, and is coordinated by the Indiana Prevention Resource Center at Indiana University.
